For the information of all offices, the Summer, 1971, issue of the NYA tabloid newspaper "Attack!" in an article entitled "Revolutionary Notes" printed instructions, including diagrams, for constructing "medium-sized bombs." In an accompanying editorial captioned "Why Revolution?", it was stated that it is no longer possible to cure "the system" by constitutional methods and indicated that NYA would be responsible for taking a leading position in coming revolutionary developments, which could mean "blood and chaos and battling the alien enemy from house to house in burning cities throughout our land."

The above issue of "Attack!", at Page 3, Columns 4 and 5, carried an article entitled "New Action Units Formed." This article disclosed that three new NYA Action Units had been organized in recent weeks and named the new units as follows:

Dear Patriotic American:

The enclosed newspaper Attack may shock you. But please do not throw it away until you study it carefully. Let me explain:

Our country is at war. Recent Gallup Polls show that 4 in 10 students ~~now are radicalized.~~ We cannot reach young people any other way, except to present it in fighting language -- the language of the young; especially the 1971 youth of our country.

The National Youth Alliance is doing a fantastic job of forming resistance to the far left revolutionaries across the country. These young, clean-cut Americans are "itching" for action that other groups cannot give them.

NYA sponsors debates with the young radicals, works on high schools and college campuses demanding that young people hear the truth while the liberal and Marxist professors and teachers lie and twist their minds.

Our young people are expanding the National Youth Alliance influence across the country, distributing hundreds of thousands of copies of Attack. NYA clubs publish their own newspapers for young people, hold rallies, and work for conservative candidates at the polls. They picket Marxist and ultra-liberal candidates. They fight the drug pushers, pornographers, and the sex merchants.

The time may come when the Marxists, the Black Panthers, and other militants will fight us in the streets. NYA young people are our only hope for a counter-measure, and we must build their ranks quickly to survive!

I know you are tired of hearing people talk about saving the country. Right now, you can help build an army of young, patriotic Americans. They will fight now, within the law, to stop those who would destroy America.

And if the revolution comes to the streets (God forbid!) they will be there too, to stand up for you and all the other fine and decent people of this great country.

Will you contribute \$1,000, \$500, \$100, or as much as you can? Will you include the National Youth Alliance in your prayers? I promise you that if you will do these two things, you can sleep at night.

NATIONAL YOUTH ALLIANCE
EXTREMIST MATTER - NATIONAL YOUTH ALLIANCE

The National Youth Alliance (NYA) is an organization originally formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election for the purpose of countering radical leftist and anarchist influences on the campuses of American colleges and universities. NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

On October 12, 1971, a confidential informant who has furnished reliable information in the past provided a copy of the Fall, 1971 (Number 7), issue of "Attack!", the tabloid newspaper published by NYA, which is edited by Dr. William L. Pierce, formerly Information Officer for the National Socialist White People's Party (NSWPP).

The NSWPP, also known as The American Nazi Party, American Nazis, and The George Lincoln Rockwell Party, was organized on February 26, 1956, at Arlington, Virginia, based upon the concept of an international "National Socialist" movement as espoused

NATIONAL YOUTH ALLIANCE

by the German Nazi Party headed by Adolph Hitler. The organization supports and follows the line of hatred against Negroes, Jews and Communists through various propaganda media seeking a legitimate dominant political party in the United States and foreign countries.

The Fall, 1971, issue of "Attack!" included an editorial entitled "What We Must Do Now", which advocates "revolutionary action" by right-wing forces in America. "Revolutionary action", according to this editorial, "is sabotaging the means by which the System rules"; "killing the creatures who comprise the System and those who collaborate with the System"; and "waging real warfare against the System, using whatever means are most effective in weakening, in crippling, in ultimately destroying the System".

The above editorial states:

"We must think * * * in terms of assassinating federal judges, of burning the stores of businessmen who act as if they are more interested in what's good for business than what's good for White America, of dynamiting the TV transmitters and newspaper presses of the alien news manipulators, of harshly punishing Whites - - male or female - - who fraternize sexually with non-Whites, of putting the fear of terrible retribution into every treacherous politician and System-serving editor, advertiser, bureaucrat, or other public person."

The above mentioned issue of "Attack!" also contained an article on Page Six entitled "Revolutionary Notes", which gives the details, including a diagram, for the construction of an improvised detonator designed to trigger commercial, military or homemade explosive charges. An introduction to this article states:

NATIONAL YOUTH ALLIANCE

"These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and material, thus overcoming the monopoly which Marxist activists presently enjoy in this area."

Reproductions of the editorial, "What We Must Do Now", and the article, "Revolutionary Notes", from the Fall, 1971, issue of "Attack!" are attached hereto.

Editorial

What We Must Do Now

For the last 20 years right wingers have been smugly telling themselves that time is on their side. As the crime statistics become more shocking each year, as the Blacks tear our Army apart from the inside, as heroin addiction continues to spread from the Black ghettos to the White suburbs, as busing advocates grow bolder with their insane demands for "racial balance," the so-called "militant" right chorals with barely concealed glee.

"The people aren't ready to rebel against the System yet," they say, "but just wait until things get a little worse!"

"Wait until they've had the Blacks crammed down their throats another year or so, then they'll be ready! Wait until no school is safe from the Blacks, wait until there's no neighborhood free of racial integration, then we'll see!"

Praying for a Bust

Another version of this pipe dream involves a coming "economic collapse." As prices continue to soar, as labor unions continue to make more - and - more - inflationary demands, as the welfare tax burden becomes ever heavier, as the cities deteriorate even further and we poison our environment even more irrevocably, as our natural resources become scarcer, as friction and inefficiency build up in our more-and-more-

"Maybe Another Three Years"

A favorite guessing game among patriots is predicting when things will be "ripe" enough, economically or otherwise, for a successful revolution from the right. For the last 20 years the usual guess has been that it'll be another two or three years.

The fact is that time is not on our side. It's on the side of the enemy.

If right wingers would open their eyes and look around, they would see that our people are not becoming more and more upright about the decline of America; they're becoming more and more accustomed to it. The further they have let themselves be pushed, the further their will to resist has been sapped, not the other way around, as our parlor revolutionaries like to convince themselves.

Mr. Average Doesn't Care

Walk into any suburban supermarket and take a long, cold look at the housewives there, in their curlers and slacks. Or study their husbands, loading up at the Seven Eleven with six-packs for a weekend of football in front of the TV. What do they care about radical politics? What but a glassy stare or open hostility can one expect if one asks them to skip the next payment on the station wagon in order to support a revolution against the System?

Loosie Spirit

True enough, the enervated

10 years ago, our people showed a lot more spunk, a lot more of the spirit of rebellion than they do today.

When the Rosenbergs' treason was revealed 20 years ago, there was such a groundswell of public indignation that not even the hundreds of Jewish and liberal clemency committees could save them from the electric chair. Today the treason of an Ellsberg stirs only the faintest whimper of protest.

No More Good Lynchings

Fourteen years ago the citizenry, through their local militias, were willing to offer armed resistance to the efforts of the federal government to enforce racial mixing in their schools. Today they have learned to live with far worse without protest.

It used to be that "freedom riding" was a fairly hazardous pastime, but there hasn't been a really good lynching of freedom riders since 1964.

When Watts erupted six years ago, there was a run on gun stores all over the country. But as a score more cities subsequently went up in flames, riot - watching via TV simply became a new spectator sport.

Americans Tolerate Anything

All things are relative, and people - including White Americans - will tolerate anything if it is forced on them by degrees.

Provided he can go step by step and not all at once.

the whole future of our race on the possibility?

Not Ready for Trouble

Being realistic, we should all pray fervently that there will not be an economic collapse - for a while, anyway. Because such a collapse can be capitalized on by others than patriots. It can be capitalized on by any revolutionary faction which is organized and ready. And our enemies are organized and ready, while we are not.

If a general economic crash came tomorrow, or next year, it would be the Reds and the Blacks who would make the most of it, and we would all end up with our throats cut.

Excuses for Inaction

Both versions of this "just wait - until - things - are - really - bad" pipe dream are simply excuses, by men without any real plan for the future, for not doing anything now.

The great difference between the conservative right and the revolutionary right is that the latter category consists of those who supposedly have realized that the System is racially destructive, cannot be reformed, and must, therefore, be destroyed and replaced by something new and altogether different. This realization, however, does not seem to have taken us very far along the road to saving our nation and securing the future of our people.

Right Is Pitiful

ure of the radical right. As just mentioned, excuses are about all that have been found.

Difficult Conditions

It is true, of course, that if the country were less prosperous - say, if a third of the White work force were unemployed - right-radical rhetoric should find a somewhat bigger and more responsive audience.

It is true that our people are comfort corrupted and soft. Too many generations of urban living and office work separate us from the harsh reality of kill-or-be-killed which still rules the everyday lives of more primitive races.

It is true that the psychological isolation of the individual - the lack of any sense of community, the it's-every-man-for-himself state of mind - which is a condition of life in urban America raises great difficulties for the revolutionary organization.

No More Waiting

The conditions which exist in the country, however, must not be taken as convenient excuses for failure but only as obstacles to be overcome.

Once we have understood the racially destructive nature of the System and the consequent necessity for revolution, we can no longer sit around waiting for the time to be right. We must consciously and deliberately set about building the revolution, whatever the obstacles.

complex industrial machine, there is bound to be a major catastrophe pretty soon, they argue.

And when everything goes bust, then our comfort-corrupted, bourgeois citizenry will be ready to listen to reason! When they've had both cars and the color TV repossessed, when they're out of work and can't make the mortgage payments, when they've lost everything, including their "respectability," then they'll fight!

occasionally pushes too fast and arouses a momentary reaction, whether to school busing or racial hiring quotas or something else. When a reaction flares up, at Pontiac or Little Rock or elsewhere, he may take a step back — but only so he can take three steps forward a little later. By and large, he has learned just about what he can get away with, and that's enough.

Twenty years ago, even

up steps, and not at all once, there is no depth of humiliation or degradation to which the average man will not descend.

The people, in other words, will never get "fed up." If their masters keep tightening the screws slowly enough — and keep them tolerably well fed in the process.

There may, of course, be a major economic collapse within the next few years. Then again, there may not. Are we really willing to gamble

How does one make a successful revolution against the System in 20th-century America? There are at least a score of rightist political organizations in this country, all pitifully weak and ineffective (most just pitiful) which either openly or covertly profess revolutionary aims, but quite obviously none has been able to answer our question.

The standard, unsuccessful procedure has been to publish a monthly newsletter, issue a 10-point (or 12-point or 4-point) program for victory, stage occasional public demonstrations or pickets to get headlines, and organize the recruits thereby picked up into local groups responsive to the edicts of the hierarchy back at national headquarters.

Gimmicks and Failure

Every few months, in order to renew interest and boost flagging enthusiasm, HQ will announce a new scheme designed to carry the organization another giant step toward political success: the formation of a paramilitary arm for "clearing the streets of traitors," a state gubernatorial campaign in which the organization has fielded a candidate, a new propaganda gimmick for launching the organization into national prominence, or something else equally grand and hopeless.

Members come and members go, but fewer than a handful of such groups have ever accumulated a "hard core" of more than 100 members at any one time. They would not be noticed at all if the System-controlled press did not occasionally find it useful to raise the specter of revolution from the right.

It is easy enough to find excuses for this colossal fail-

and difficulties.

Essence Is Action

The essence of revolution is neither revolutionary rhetoric nor revolutionary organization but revolutionary action. Both rhetoric and organization are, of course, indispensable. But the great fallacy of the radical right today is the belief that rhetoric and organization alone are sufficient. They are not.

Regardless of all the bombast about fighting the enemy and smashing the System which issues from the right, no right - revolutionary organization can be taken very seriously as long as that organization continues to play the game by the System's rules.

Political Hobbyists

Our race has never been in greater jeopardy than today. Neither Hun nor Moor nor Mongol ever posed a more deadly threat to our racial existence than does the alien - controlled System.

ATTACK!

What Now

And yet the armchair warriors of the right limit themselves to talk — and to those activities permitted by the System.

They are playing at revolution. They are political hobbyists. They should no more be taken seriously than the five-year-old runaway whose determination to escape from parental tyranny wiles at the end of the block, because he is not allowed to cross the street alone.

Action is demanded, and we get picketing — provided, of course, the pickets have previously applied for and been granted a demonstration permit.

Strike the System!

Revolutionary action is not parading or picketing or writing a letter to your Congressman or even beating up pro-Viet Cong hippies; it is striking a blow against the System.

It is sabotaging the means by which the System rules.

It is killing the croatures who comprise the System and those who collaborate with the System.

It is waging real warfare against the System, using what

from p. 4
ever means are most effective in weakening, in crippling, in ultimately destroying the System.

Klan and Minutemen

It may be bad manners to mention names, but, for the sake of concrete example, let us dispense with manners. The only two organizations on the right which have even made a serious effort at revolutionary action are the Ku Klux Klan and the Minutemen, paramilitary arm of the now-defunct (for all practical purposes) Patriotic Party.

Neither of these groups has had or will have any significant appeal among students, for manifest reasons. The Minutemen, afflicted with a coterie of loose-tongued, trigger-happy looks, and the various Klan factions, with their hooded robes and their alliterative nonsense of Klaverns, Kludds, Kleagles, and Klorums, have an image on campus which is distinctly more ridiculous than revolutionary.

Avoiding Irrelevance

Yet both the Klan groups and the Minutemen have, from

NYA — the Organization for You!

The National Youth Alliance is a growing, dynamic organization of young men and women concerned about America's future and determined to take a hand in shaping that future. Barely two years old, NYA already has 4,000 members throughout North America.

Originally established to provide a healthy alternative to the "drug culture" and mindless self-destruction of today's campus left,

and accustomed to self-discipline can build the future we want in America, NYA unconditionally opposes the use of dangerous drugs and narcotics. Since drug usage is a growing menace undermining the lives of more and more young people, NYA pledges an all-out fight to stamp out this menace.

2. No Black Power!

4. No More Phony Wars!

NYA is opposed to the further sacrifice of American blood and wealth in foreign wars which are not absolutely essential to the advancement of American interests.

NYA recognizes that America cannot have a sound foreign policy until revolutionary changes in this country have brought about a sound government with a radically

NYA is based on the idea of quality — as opposed to equality — in all things.

What We Want

NYA members are working to build a revolutionary new order of things in American life — a new order based on natural laws.

NYA wants to develop in America a healthy cultural and racial approach to politics reflecting an understanding of authority, discipline, duty, and honor.

We want to achieve an organic society which will not only protect and perpetuate the great, traditional values of Western civilization, but will purify the Western world of the degeneracy of communism and liberalism.

4-Point Program

1. Stamp Out Drugs!

Recognizing that only healthy, clear-headed young people with self-respect

In order that young Americans may live, work, and study in a wholesome environment free from intimidation, NYA pledges to neutralize and overcome the noisy, arrogant, and destructive Black Power groups which have sprung up like poisonous growths all over America. NYA members who are students will unite in putting an end to the Black Power tactic of disrupting our schools, insisting on special privileges and immunities, and terrorizing those who don't acquiesce to their demands.

3. Reds Off Campus!

With a pride in our own racial and cultural heritage and an uncompromising determination to protect that heritage, NYA pledges total opposition to anarchist, Marxist, and other SDS-style groups which are working to turn America into a "people's power" mobocracy, dominated by a non-White "third world" rabble.

different outlook than that offered by either of the major parties.

Therefore, NYA opposes further procrastination in the no-win Vietnam war and pledges to work unceasingly to prevent further American involvement in the Zionist war in the Middle East.

Activities & Publications

NYA members participate regularly in group activities if there is an NYA Action Unit on their campus or in their community, or engage in constructive individual Action Projects if there is none. Activities can range from distributing or selling copies of ATTACK! to organizing mass demonstrations.

All members receive ATTACK! and all special bulletins and other publications.

What Now

time to time, supplemented their unreal foolishness with something real. They have not shrunk from assassination or demolition when they perceived those things to be expedient.

Thus, despite their many and grievous flaws, they have, to a greater extent than other, apparently more sophisticated organizations, avoided the most grievous flaw of all: irrelevance.

While the dilettantes of the right look upon them, with condescension, the rednecks at least understand something the dilettantes do not. They understand intuitively that the game being played now is for keeps, that the stakes are the life or death of our race.

More Dynamite, Less Repartee

While the Bill Buckleys have attacked the avowed enemies of White America with clever repartee over cocktails and while the so-called "militant" right has picketed and demonstrated and shouted slogans, the Klansmen and the Minutemen have gone at those enemies with tire irons and gasoline — and, even more appropriately, with dynamite and machine guns.

The fact that the head Minuteman is currently confined in a federal penitentiary, as are a very substantial portion of the best Klan activists, and that both organizations have been phenomenally unsuccessful of late

is beside the point. Neither Klansmen nor Minutemen have displayed the cleverness and self-discipline to match their bravery and recklessness, and they have paid the price thereof.

Can't Win Without Attacking

The point is that no group of patriots, regardless how clever and sophisticated, are justified in taking themselves seriously unless they are willing — like the Klan and the Minutemen — to employ direct action against the enemies of our people.

The criterion which separates the dilettantes from the revolutionaries is the willingness to perform a revolutionary act. And whoever is so willing must be prepared to suffer deprivation, imprisonment, or death when the System strikes back. There is no way to be certain of avoiding such reprisals. One can only attempt to minimize one's own losses by fighting as intelligently as possible.

The Black Panthers

Actually, our enemies provide for us a far more instructive example of the efficacy of revolutionary action than do our friends.

Prior to October 1966 the Black Panther Party did not exist. A little over two years later it had gained such prominence that J. Edgar Hoover identified the Black Panthers in his 1968 report to Congress as "the greatest threat to

the internal security of the country."

The key to this meteoric rise was the deliberate and brutal murder of 14 White policemen and the wounding by gunfire of some 61 others in a space of 28 months.

To most of the Black community the White cop, or "pig," is an object of intense hatred. To them the police are agents of the authority which subjects them to the White man's laws and customs — laws and customs which are alien to their nature.

Vicarious Murder

Every time the Panthers gunned down another White policeman, every Black in the community shared a vicarious thrill of triumph. The Panthers took on the aura of Black Robin Hoods. Young Blacks looked up to them and imitated them. Older Blacks gave them support, even when they were afraid to approve of their tactics openly.

When the Panthers began their murderous career they were one of dozens of loud-mouth Afro-militant organizations in America, all earning their living by making pious and arrogant demands on White society. But while the others continued flapping their lips, the Panthers loaded their guns and went into the streets.

Action Wins Support

Within six months of their founding they had left the other Black groups in their

dust by staging a military-style invasion of the California State Assembly, brandishing loaded rifles, shotguns, and pistols to back up their demands. The sheer bravado of this coup gained for them overnight the hearts of Black America. The brazen cop-killing which has been going on ever since has clinched the love affair.

Jewish Help Incidental

It is true, of course, that wealthy Jews have given enormous sums of money to the Panthers, and that sympathy from this same element, which controls America's mass media, has resulted in millions of dollars' worth of free publicity for them. But this help came after the Panthers had established their number-one position, not before. Their success was due solely to their recognition of the necessity of revolutionary action and their willingness to accept the consequences of such action.

It must be noted that among those consequences was the death, imprisonment, or exile of most of the Black Panther Party's original leaders. Such a heavy toll of Panther leaders was taken, in fact, that the group has now lost most of the revolutionary initiative it had earlier.

An Uncomfortable Decision

So where does all this leave us? Not in a very comfortable frame of mind, certainly.

Our right-wing hobbying

that most of the silent majority are not enthusiastic advocates of the System's racially destructive goals. But, just as a herd of cattle allow themselves to be driven along the trail to the slaughterhouse, the American public let themselves be goaded into what appears to their shortsighted vision to be the path of least pain.

The System has, through a combination of brainwashing and threats, convinced the public of the inevitability of the present line of political, social, and racial development. They're not happy with the way everything is going, but they grit their teeth and try to make the best of it.

Ross and Orval and George

Watching Ross Barnett and Orval Faubus and George Wallace bluster and boast and defy the System — and then back down — has persuaded them that "you can't fight the U.S. government."

Since Mr. Nixon and the Congress and the Supreme Court have assured them that anything less than total racial integration is unthinkable for America, the silent majority is muttering, "we've got to learn to live with the Blacks, whether we like it or not." And so, for example, they subject their children to the savagery of integrated schools, rationalizing that the brutal experience is a necessary adjustment to the multiethnic world of tomorrow.

hurt, and it helps to relieve our frustrations. But when we have come to understand the utter irrelevance of this hobbying and have awakened to the fact that we are losing ground every day that we fail to inflict losses on the enemy, we must then make up our minds to move beyond publishing and picketing and demonstrating and pulling stunts designed to get newspaper coverage.

Terrible Retribution

We must think instead in terms of assassinating federal judges, of burning the stores of businessmen who act as if they are more interested in what's good for business than what's good for White America, of dynamiting the TV transmitters and newspaper presses of the alien news manipulators, of harshly punishing Whites — male or female — who fraternize sexually with non-Whites, of putting the fear of terrible retribution into every treacherous politician and System-serving editor, advertiser, bureaucrat, or other public person.

A Twofold Purpose

The immediate purpose of such revolutionary action is twofold. In the first place, we cannot begin winning the war until we begin hurting the System.

If that were all, however, we would be doomed to sure — though, perhaps, heroic — failure. The System is too strong and we are far too weak.

Our second — and absolutely essential — purpose in committing revolutionary acts is to turn the public

Average American finds resistance to the System an unacceptable alternative. He wants to take the easy way, the safe way. He doesn't want to do anything that will hurt his business or jeopardize his job.

He doesn't like Reds or rioters or Marxist judges, but he's willing to make concessions to them if they will leave him alone. He's a lot easier to bully than he would have you believe.

Impressing Mr. Average

The proper aim of the revolutionary right — our aim — is to impress two things on Mr. Average's mind:

1. Going along with the System isn't going to be as easy and painless as you thought. There will be chaos, turmoil, physical danger, and material loss for you as long as you stay with the System, because we will raise continual hell. You might even get killed.

2. The System's plan for America is not so inevitable after all. The System can be opposed. A monkey wrench can be thrown into its works. Its untouchables can be killed.

They Will Remember

This impression will never be formed on the public mind by printed programs or by verbal boasts; but only by revolutionary deeds. Give them some real and meaningful revolutionary action, and we will be surprised how many of the hair-curler-and-station-wagon set will remember the White.

If we can find the courage and the resolution to act — and the brains and discretion

the "great, docile herd" who
comprise the "silent majority"
— against the System. With-
out their support, or, at least,
acquiescence, the System can-
not maintain itself.

Path of Least Pain

It is important to realize

to act intelligently — we shall
not only win the hearts of
our compatriots, but also the
revolution.

But if we continue doing
what we have been doing and
waiting for the time to be
ripe, we shall surely fail —
and our race with us.

Stereotype

not mean that they intend to change their behavior. It only means that they want the privilege of indulging their "unique individuality" without being called to account for it, without consideration of the relation of this behavior to the functioning of the society as a whole.

Everyone demands the freedom to do his own thing, and the utopian dream is that this can be accomplished by the elimination of all classes and systems.

Man and Nature

The injunction against stereotyping is basic to our belief in democracy and equality. We are all supposed to be equal, with no groups, categories, classes, or races that would make any of us different, unequal, or superior to others. America is thus supposedly made up

of individual separate beings, not groups, types, or races. The only way to achieve true equality, as the communists well know, is to eliminate all classes, economic, racial, or whatever.

At bottom, this attempt to isolate and separate the individual from all classes, order, and systems, from biological necessities, is an attempt to separate man from Nature. It is a refusal to accept the facts of life — that we are a biological organism inextricably tied to Nature, that we live and die in a cruel, harsh world in which the basic law is that life competes with and feeds on life.

To escape the demands of Nature we have created a dope-dream utopia consisting of happy, equal, pure "individuals" who no longer live

in Nature. We have isolated ourselves from Nature in our air-conditioned, plastic world. We have not conquered Nature, but have polluted and exploited it to the point where all of us are threatened with extinction.

The ecological debt is due. Man must return to Nature and start stereotyping again, i.e., admit his organic relationships.

1984 Is Now

Those people whose minds have been molded by the equalitarian dogmatists are mentally enslaved, and they are dependent on Big Brother to take care of them. They look around them at the violence, chaos, and anarchy of America today, and it is a mystery to them why all this is going on. They see

no pattern or groups, only unrelated individuals.

Other Americans, who are still able to think for themselves, see a pattern. They see groups, special interests, classes, and races involved in the withering away of America today. They are in contact with reality and don't care whether Big Brother calls it "stereotyping," "pig-snealing," or "thought-crime."

What Can Be Done?

It is difficult to resist the onslaught of liberal propaganda. It comes at us from our newspapers, radio, TV, movies, magazines, books, plays and even music. The schools are pounding it into American children in the name of education.

But what we can do, when

from p. 2

someone starts preaching about stereotyping, is to remind ourselves: for God's sake, do stereotype. Look at Nature and see the likenesses and differences. Classify, discriminate, and generalize. Put things into categories, classes, types, and races.

Find the order that exists in the real world. Relate yourself to this organic whole — and fight for your own place in it.

The communists' commandment is, thou shalt not stereotype. Nature's law is, thou shalt stereotype — or perish.

A Salute to 'Breakthrough'

One small but energetic organization which deserves favorable mention is the Detroit-based "Breakthrough." Conservative Catholicism, militant anti-communism, and self-sacrificing pro-Americanism determine the outlook of Breakthrough's members.

Their leader, Donald Longinger, has been under strong attack by Detroit's un-American, alien-controlled courts recently because of his physical disruption of subversive meetings and demonstrations in the Detroit area. REVOLUTIONARY NOTES ②

These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and materiel, thus overcoming the monopoly which Marxist activists presently enjoy in this area.

NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the construction or use of any of the devices, materials, or techniques described herein.

Improvised Detonators

Whenever feasible, the urban guerrilla should employ fac-

Lead acetate is used in the paint industry, particularly for the manufacture of non-fouling marine paints, and in dyeing and printing. It formerly found medical use as an astringent.

Sodium azide is used in the rubber and plastics industry but is not as easily available as lead acetate.

Both materials will be found in any university chemical stockroom or at any major laboratory supply house.

Preparation of Lead Azide

To prepare 5 grams of lead azide, separately dissolve 8½ grams of lead acetate tri-

tory-produced commercial or military explosives, which are usually safer and more reliable than improvised explosives. There may be times, however, when the difficulty in obtaining commercial or military explosives will make it worthwhile for the guerrilla to consider improvised or homemade explosives.

Sometimes, too, while dynamite, TNT, or other secondary explosives may be available, blasting caps may not be, so that the ability to improvise a blasting cap from more-or-less easily obtainable materials may be very useful.

The Primary Explosive

There are many different high-explosive materials which may be used in blasting caps under emergency conditions, but nearly all modern explosives manufacturers have standardized on the use of lead azide, and this Note will confine itself to lead azide caps.

Future Notes will deal with the preparation of other primary explosives, such as fulminates, acetylides, and peroxides. Some of these other primary explosives may be prepared from materials much more widely available than those used for lead azide, but they suffer from one or more defects in comparison with lead azide.

The following procedure for the preparation of lead azide is very simple and straightforward, comparatively safe, and yields a reliable and effective product.

The two raw materials required are lead acetate (sugar of lead) and sodium azide (nitrides). Both these substances are non-explosive (but highly toxic) and fairly readily available.

hydrate crystals and $2\frac{1}{4}$ grams of sodium azide in 50 ml (about 1 fl. oz.) of water each. Suitable containers are 100 ml beakers.

Weighing of the chemicals can be done on one of the very inexpensive balances which is furnished with any child's chemistry set. These can be purchased for two or three dollars at a large Sears or Montgomery-Ward store.

If no balance is available, use a slightly rounded (teaspoonful) of the acetate and a slightly rounded half-teaspoonful of the azide.

When both chemicals are completely dissolved, pour the acetate solution into the azide solution while stirring. A dense, white precipitate of lead azide will immediately form.

Filter to separate the lead azide and rinse with about 50 ml of water in the filter paper. In a pinch, a piece of newspaper can be used for the filtration.

Dry the lead azide on the filter paper in a warm, dry place, such as a furnace room or a utility closet. Avoid exposure to direct sunlight, which causes the lead azide to decompose. It is ready for use as soon as it is completely dry.

Lead azide is a rather sensitive high explosive, which can be initiated by percussion or friction as well as heat. It should be handled with great care.

Electric Blasting Cap

A general-purpose electric cap, suitable for initiating dynamite, nitrostarch, TNT, picric acid, PETN, RDX, and a number of other secondary explosives, can be made with 1 gram of lead azide, a miniature flashlight bulb, and a short piece of aluminum tubing.

Prepare a 2-inch length of thin-wall aluminum tubing $\frac{1}{4}$ -inch to $5/16$ -inch in diameter by pinching one end shut with a pair of diagonal cutting pliers. Two pinches at right angles will produce a cross-shaped closure which does not increase the diameter of the tubing. Seal the closure with a small dab of epoxy glue.

A suitable piece of tubing can be cut from a spoke of a TV antenna with a hacksaw. A cheap antenna of the "rabbit-ears" variety yielded enough tubing of the right diameter for ten of the caps described here.

Firmly pack about a gram of lead azide into the pinched-off aluminum tube, using a lollipop stick to tamp.

Prepare the miniature flashlight bulb by breaking away the glass above the filament only. Scratching the glass with the edge of a file first helps in making a proper break in the bulb.

By far the best bulb to use is one of the "grain of wheat" types sold in electronics supply stores. These are rated at $1\frac{1}{4}$ -3 volts, are very small, and have wires already attached.

The broken cup of glass surrounding the filament is gently packed with lead azide. Care must be taken not to damage the filament during this operation.

Next, wind a $\frac{1}{4}$ -inch-wide strip of paper around the bulb until it will just slip into the

aluminum tube. Slide the bulb and paper down until they touch the lead azide already packed into the tube. Fill the open end of the tube with epoxy cement.

A minimum of 3 volts should be used for reliable initiation of this cap. Two (better, three) fresh penlite cells in series or a fresh 9-volt transistor-radio battery will do.

More Sensitive Cap

A modification which yields a much more sensitive cap is easily made. Instead of packing lead azide around the bulb filament, apply a small amount of a mixture of approximately equal portions of lead azide and nitrocellulose directly to the filament.

For the nitrocellulose, use a couple of the tiny, cylindrical grains of propellant from a rifle cartridge.

Macerate and blend the propellant and azide thoroughly with a couple of drops of acetone (obtainable from behind the counter at any drug store), using a toothpick. Carefully apply a small droplet of the paste to the filament and let it dry. Leave the rest of the bulb empty, and slide it down into the tube as before, so that the filament is just above the lead azide surface in the tube.

A single penlite cell will cause a cap prepared in this manner to detonate.

NATIONAL YOUTH ALLIANCE
EXTREMIST MATTER - NATIONAL YOUTH ALLIANCE

The National Youth Alliance (NYA) is an organization originally formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election for the purpose of countering radical leftist and anarchist influences on the campuses of American colleges and universities. NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

A confidential source who has furnished reliable information in the past on December 3, 1971, made available copies of the December, 1971 (Number 8) issue of the NYA tabloid newspaper "Attack!" On Page Six of this publication, under the caption "Revolutionary Notes," are instructions and a diagram for constructing an FGAN (ammonium nitrate) bomb. The article also contains suggestions regarding the purchase of lead azide for construction of detonators and for the handling of detonators.

The above mentioned article, "Revolutionary Notes," contains the following preface:

"These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and materiel, thus overcoming the monopoly which Marxist activists presently enjoy in this area.

"NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the construction or use of any of the devices, materials or techniques described herein."

Attached herewith is a reproduction of the article "Revolutionary Notes," which appeared in the December, 1971 issue of "Attack!"

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

These Notes are intended solely for the public with detailed information on urban guerrilla warfare, tactics and materiel, as overcoming the monopoly high Marxist activists presently enjoy in this area.

NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the instruction or use of any of the devices, materials, or techniques described herein.

FGAN Bombs (1)

When commercial or military explosives are not available, an improvised explosive which is very useful is fertilizer-grade ammonium nitrate (FGAN). This material is very cheap, very safe, and very readily available in large quantities without red tape or questions for the purchaser. Under the proper conditions, it is a powerful high explosive, suitable for medium-sized as well as large bombs.

FGAN is sold in 100-lb plastic-lined paper sacks by practically all seed-and-feed stores catering to farmers, particularly during the spring and summer months. It is not ordinarily handled by urban lawn-and-garden shops. A 100-lb sack currently retails for about \$3.75.

One point to keep in mind when purchasing FGAN is that ammonium nitrate is an ingredient

of a number of fertilizer mixtures containing other substances. Such fertilizers are designated by their percentage of total nitrogen content. Look for the total nitrogen content on the label. It should be between 33 and 34 per cent, corresponding to ammonium nitrate of 94-97 per cent purity. Other so-called "ammonium nitrate" fertilizers — one rated at 19 per cent total nitrogen content, for example, and containing only 60 per cent ammonium nitrate — are not suitable for explosive use.

Ammonium nitrate is a very insensitive high explosive. The necessity for strong confinement, a powerful initiating booster, or both to insure proper detonation has limited its use in medium-sized guerrilla bombs — although it was used with spectacular success by Red activists in a large bomb which destroyed the Army Math Research Center building at the University of Wisconsin last year.

When used in sufficiently large quantities (more than 100 lbs, say) strong confinement becomes unnecessary, and complete detonation can be obtained in a relatively non-confining container, such as an oil drum, a barrel, or even the bag in which it was purchased, provided the FGAN has been pre-sensitized and a sufficiently powerful booster is used. The most common sensitizing agents are hydrocarbon oils or waxes, although many other substances — such as powdered charcoal — have been used successfully.

Medium-sized bombs (10 lbs or less of FGAN) usually require strong confinement as well. Their manufacture is sufficiently demanding — but important enough — that a separate Note will be devoted to them in a later issue of **ATTACK!**

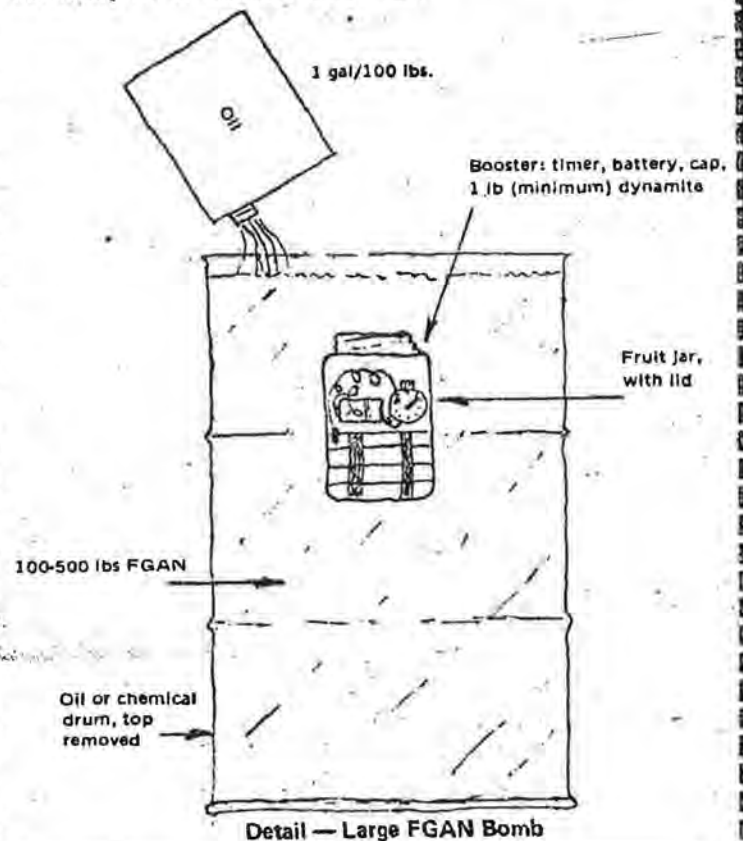

An arbitrarily large bomb may be prepared in empty oil drums or other suitable containers by mixing FGAN with fuel oil or automotive lubricating oil — even used crankcase oil — in the proportion of 1 gallon of oil to each 100 lbs of FGAN.

One pound of dynamite or TNT, primed with an ordinary electric or non-electric blasting cap, will provide a sufficient booster for detonation of the

FGAN/oil mixture. The booster should be protected from the oil by wrapping it in a plastic bag or enclosing it in a screw-cap jar before burying it in the sensitized FGAN.

FGAN is very hygroscopic, and the absorption of moisture from

damp air, if it is left in an unsealed container for a few days, is sufficient to make FGAN very much more difficult or impossible to initiate. It should remain in the unbroken bags in which it is sold until just before use.

More on Detonators

One **ATTACK!** reader sends the following suggestion in connection with Note 2, on the preparation of lead azide: "One of the raw materials needed, sodium azide, is used in a standard procedure for the determination of chromium. Thus, if any question is raised in procuring sodium azide from a laboratory stockroom, a water analysis for chromium will provide a plausible excuse."

It might also be re-emphasized that the manufacture of detonators (or any process involving primary explosives) is potentially very hazardous. One simple precaution, which may mean the difference between the loss of several fingers and an eye or two, and merely a couple of burned or lacerated fingertips, is

the use of a cigar box, or similar container, as a blast shield.

Punch or drill a hole in the lid of the cigar box the same diameter as the tubing used for detonators. Glue a wooden block to the inside bottom of the cigar box so that when a detonator is resing on the block, only the upper 1/4" - 1/2" protrudes through the hole in the lid. A dimple or hole in the block about 1/8" deep is sufficient to hold the bottom of the detonator in place.

When filling and tamping detonators in this shield, remember never to have your head directly above the detonator.

In the next issue: incendiary bombs from plaster of paris.

NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

On February 8, 1972, a confidential informant with whom contact has been insufficient to assess reliability but who is in position to furnish reliable information, provided copies of the February, 1972 (Number 9) issue of "Attack!", the tabloid newspaper published by NYA.

REVOLUTIONARY NOTES

4

These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and materiel, thus overcoming the monopoly which Marxist activists presently enjoy in this area.

NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the construction or use of any of the devices, materials, or techniques described herein.

Incendiary Plaster

There are a number of solid incendiary mixtures which recommend themselves for urban guerrilla use. Perhaps the most satisfactory of these is the one described here, which utilizes ordinary plaster of paris and finely divided aluminum. For safety, durability, and handiness it easily wins first prize. For incendiary effect it also scores quite high.

Plaster of paris (calcium sulfate hemihydrate) is universally available in building-supply and hardware stores. A five-lb sack usually costs under a dollar, and larger quantities are even cheaper.

Aluminum powder is used in the paint industry and in pyrotechnics. It is also available from laboratory supply houses at about \$3/lb.

Procedure

Empty a 5-lb sack of plaster of paris into a bucket. Add 3¼ lb of aluminum powder. (Postal scales, of the kind which may be bought for about two dollars in a stationery store, are handy for weighing the aluminum.)

Stir the dry ingredients until thoroughly mixed. It does not hurt to spend five minutes or more blending the plaster and aluminum to insure complete homogeneity.

When dry-blending is complete, add a little under a quart of water to the bucket while stirring vigorously. Mix to a uniform consistency about that of cake batter. Note that this step must be completed within a couple of minutes, otherwise the plaster may begin to set before it can be poured.

Immediately pour the wet mixture into suitable molds to harden. A convenient finished weight for the incendiary blocks is one pound. A block 6 inches by 3 inches by 1½ inches weighs approximately one pound, and any small pasteboard boxes of about those dimensions will serve as satisfactory molds.

Allow the blocks to dry for two or three days in a warm, dry place. They can then be safely sawed, machined, drilled, or painted. There is virtually no danger of accidental ignition, because of the very high ignition temperature required.

Ignition

A suitable ignition mixture for the plaster incendiary blocks may be prepared by mixing equal volumes of aluminum powder and finely powdered potassium permanganate.

Potassium permanganate is used as a disinfectant and is available from behind the counter at most drug stores. It will generally not be in the form of a fine powder when purchased and will therefore require

Incendiary Block Detail

grinding with mortar and pestle or some improvised equivalent.

Drill a ½-inch-diameter hole 1½ inches deep in the end of each incendiary block. Firmly pack the holes to within ½ inch of their tops with the igniter mixture.

An electric ignition squib or a time-delay chemical squib (both of which will be described in future Notes) may then be inserted in the top ½-inch of each hole.

A simple string fuse will generally not suffice to ignite the aluminum-permanganate igniter mixture.

Application

Once ignited, an incendiary block of the type described here cannot be extinguished before it has completely consumed itself. It will even continue burning while submerged in water.

be successfully used in many cases for the sabotage of metal-enclosed objects, such as vehicles, power transformers, fuel storage tanks, and communications equipment. A one-pound block, however, should not be relied upon for burning through more than one-eighth inch of steel. Thicker steel structures can be successfully penetrated by using thermit in conjunction with an incendiary block.

One interesting feature of this aluminum-plaster incendiary is that it can be cast in almost any shape that comes to mind: a piece of crockery, an ornamental bookend or wall plaque, a large ceramic tile, a length of concrete drainpipe. In such form it looks completely natural and harmless and gives no hint of its incendiary character.

In the next issue...

Unity Meeting in Detroit

NYA was represented by ATTACK! editor William Pierce at a joint meeting in Detroit December 18 sponsored by Detroit's Breakthrough and the Toronto-based Edmund Burke Society.

After a dinner in honor of Geza Matrai, the young Hungarian-born member of the Edmund

Burke Society who tackled Soviet Premier Kosygin in Ottawa last year, Dr. Pierce conferred with the EBS's Don Andrews and Breakthrough's Don Lobsinger.

Possibilities for collaboration between the three groups in order to combat increasing harassment by the media and the authorities were explored.

NYA Members to Participate in Wallace Campaign

Many NYA members and supporters throughout the nation will be actively working in the Wallace campaign this year. A few have already started.

In order that this participation may be as effective as possible, the following guidelines have been laid down by the National Office:

1. All campaign work will be on an individual basis. The National Office is not endorsing any candidate in 1972. No Wallace campaign literature, buttons, or bumper stickers will be available from the National Office.

2. Where there is no official Wallace organization, an Action Unit or an individual NYA activist may find it expedient to form a local Wallace committee. Where there is already an official Wallace group functioning, however, NYA'ers should work within that group instead of forming a separate group, unless there are compelling reasons for working separately.

3. The objective of NYA

campaign workers should be twofold: to gain practical experience in non-radical political organizing and to meet and influence new potential recruits.

4. It should be kept in mind that NYA philosophy and policies are considerably more radical than those of the official Wallace organization. Since it is not our purpose to attempt to radicalize that organization or to change its policies in any way, all proselytization should be done on a strictly person-to-person basis.

5. Where other groups are also participating in the Wallace campaign, there will undoubtedly be factional disputes and hostilities. NYA participants will do well to keep their principal objectives before their eyes at all times and avoid becoming absorbed in intergroup hostilities.

6. Stock up with plenty of ATTACK!s now, so that you will have copies for all interested persons you meet in your campaign work.

NYA Clashes With JDL in New York

When Golda Meier showed up at a United Jewish Appeal dinner in Manhattan December 11, ten NYA pickets were on hand to greet her. Their signs read "Golda Go Home!" and "NYA

Says No to Zionists and Communists."

When approximately 30 spitting and hissing members of the Jewish Defense League, who were there to "defend" Golda,

became too obnoxious, one was squirted with tear gas. A brief scuffle ensued and police intervened, but there were no NYA arrests.

NYA PICKETS are held behind police line in NY demonstration against more US military involvement in Middle East.

local NYA units are autonomous. He said that the national organization gives advice to the local units but disclaims responsibility for the actions of the local NYA units. According to this source, subscription to the NYA publications is tantamount to membership in the NYA, and NYA reportedly has approximately one hundred paid subscribers to its tabloid newspaper "Attack!".

D. Publications

A confidential informant advised on August 17, 1971, and November 3, 1971, respectively, that issues number six and seven of the NYA tabloid newspaper "Attack!" were published during August and October, 1971. The source advised that the issue of August, 1971, was designated the Summer, 1971, issue and the October, 1971, issue was designated the Fall, 1971, issue.

The informant last mentioned above advised on October 12, 1971 that the Fall, 1971, issue of "Attack!" was printed by Journal Newspapers, Incorporated, 331 North Fairfax Street, Alexandria, Virginia. The source learned that 10,000 copies of the Fall, 1971, issue had been ordered.

b2

[] October 12, 1971)

b7D

Circulated with the Summer, 1971, (Number Six) issue of "Attack!" was a letter written by WILLIAM L. PIERCE, which announced a new phase of intensive organizing by NYA "using the most radical and aggressive methods we can devise." It stated that the

whole NYA operation had been streamlined and that everything not directly relevant to this single purpose had been discarded. The letter further stated that enemies of NYA had used smear tactics to destroy NYA but had failed. It was conceded, however, that the smear campaign had succeeded in substantially reducing NYA's income. Consequently, the NYA mailing list was drastically trimmed and the functions of the two NYA publications, "Action" and "Attack!", were combined in a single publication. PIERCE's letter states that mechanized mailing services were discontinued for volunteer labor in order to reduce expenses. The letter assured that "Attack!" would continue to be published and concluded with an appeal for contributions.

[redacted] August 17, 1971)

b2
b7D

On January 20, 1972, it was reported that WILLIAM L. PIERCE writes, edits, and publishes the NYA newspaper "Attack!" and that the policies advocated in "Attack!" represent PIERCE's political views. According to the source, PIERCE is a very brilliant theoretician and writer and is a physicist with a Doctor of Philosophy degree. The articles entitled "Revolutionary Notes", which have appeared in "Attack!" since the Summer, 1971, issue and which furnish readers instructions and diagrams for constructing simple explosive and incendiary devices, were originated by PIERCE.

[redacted], January 20, 1972)

b2
b7D

✓ Although "Attack!" has a circulation of about 3,000, the newspaper has only about 100 paid subscribers. Most copies of "Attack!" are distributed free of charge. The paper is supposed to be published monthly but actually is issued less frequently because of financial considerations. The cost for printing one issue of "Attack!" is about \$300, and another \$300 is required in order to mail the publication to its readers.

E. Finances

The circular letter published by PIERCE in August, 1971, referred to above, states that smears by enemies of NYA had resulted in substantially reducing NYA income. According to the letter, NYA reached the point where it was unable to meet its payroll or even pay its printer for the publication of the NYA newspaper "Attack!". The letter states that the national office staff had been required to take on outside employment, either part-time or full-time in order that each staff member could provide his own living expenses and thereby reduce the drain on NYA resources. Creditors of NYA were asked to defer demands for payment. According to PIERCE's letter, these measures allowed NYA to continue its operations, including the publication of the NYA newspaper "Attack!".

[] August 17, 1971)

b2
b7D

The Fall, 1971, (Number Seven) issue of "Attack!" was also accompanied by a circular letter written by WILLIAM L. PIERCE. This letter described the attention that NYA had received from PRAVDA the official Soviet news organ, and concluded that the "Reds" considered NYA a threat in influencing American youth. The letter indicated that NYA welcomed this notoriety which it considered proof that all other right wing literature is worthless with respect to converting or recruiting young people who have already been influenced by the "Reds." The letter urged readers to contribute to NYA in order to insure the continuation of its publication, which apparently caused left wing elements so much concern.

[] November 3, 1971)

b7D

A circular letter written by PIERCE also accompanied the December, 1971, (Number Eight) issue of "Attack!". This letter followed the theme of PIERCE's previous letter of October, 1971, mentioned above, that NYA and its newspaper were causing considerable

consternation, not only among leftists but also among pseudo-patriots, who had joined in the attacks upon NYA. The letter states that these attacks had strengthened NYA's conviction that it had at last broken out of a "right-wing rut" and was reaching dissatisfied and militant-minded young people of America. PIERCE states in this letter that NYA policies had resulted in the defection of many of its contributors and the loss of this support had significantly affected NYA's operation. The reader was urged to support NYA by becoming a NYA pledger or a subscriber to NYA publications.

F. Miscellaneous

An article appearing in the October 1, 1971, issue of "The Washington Post and Times Herald", a daily newspaper published at

Washington, D.C., page A-16, captioned "Mailing List Theft Laid To Lobbyists" reflects that Dr. WILLIAM PIERCE, Editor-In-Chief, of NYA publications, had been indicted in Superior Court the previous day on charges of receiving stolen property. The stolen property is identified in the article as a mailing list belonging to Liberty Lobby, a rival conservative organization. The list allegedly contains 24,000 names and was valued at more than \$100. The article states that Liberty Lobby alleges "PIERCE's group used the mailing list to send 'poison pen' letter to its own adherent's criticizing the heads of Liberty Lobby." PIERCE is identified in the article as a former member of the National Socialist White Peoples Party, who runs the NYA newspaper, "Attack!", which is said to reach 30,000 persons.

("The Washington Post", Washington, D.C., October 1, 1971)

The National Socialist White Peoples Party is characterized in the appendix of this report.

Records of the Office of the Clerk of the Superior Court for the District of Columbia (Criminal Division), Washington, D.C., disclosed on November 10, 1971, that PIERCE had been arraigned on September 29, 1971, following an indictment charging him with a felony, i.e., receiving stolen property. The case was continued until November 16, 1971, for trial before Judge ALFRED BURKA.

(Agent investigation, November 10, 1971)

Inquiry on December 8, 1971, at the office of Judge ALFRED BURKA, Superior Court for the District of Columbia, disclosed that criminal prosecution of PIERCE on the charge of receiving stolen property had been dismissed on December 7, 1971.

(Agent investigation, December 8, 1971)

Investigation on January 26, 1972, at the United States District Court for the District of Columbia, Washington, D.C., revealed that Civil Action number 475-71, an action brought by LOUIS T. BYERS for libel damages in the amount of \$175,000, filed March 5, 1971, against C.B. BAKER, WILLIS A. CARTO, Liberty Lobby, Incorporated, and [redacted] had been certified to the Superior Court of the District of Columbia, Washington, D.C., on October 27, 1971, for trial. b7c

(Agent investigation,
January 26, 1972)

The Civil Docket of the United States District Court for the District of Columbia, Washington, D.C., also reflected on January 26, 1972, a civil action number 1051-71 brought by Liberty Lobby, Incorporated, against LOUIS T. BYERS, WILLIAM L. PIERCE, and LEO DONALD PHILLIPS, doing business as Heritage Advertising, Incorporated. Plaintiff in this action asked for a temporary restraining order to prevent further use of Liberty Lobby's "Pledge List" for mailing of NYA "news and other scurrilous and untrue material." The complainant accused defendant of stealing mailing lists belonging to Liberty Lobby and tortiously converting them to defendant's own use. On October 18, 1971, the application was dismissed by Judge JOSEPH WADDY, United States District Court, Washington, D.C.

II. OBJECTIVES AND PROGRAM

In a circular letter accompanying the Summer 1971 (Number 6) issue of the NYA newspaper "Attack!", it was stated that a new phase in the development of NYA had begun. According to the letter, it was to be a phase of intensive organizing using the most radical and aggressive methods that could be devised. It was stated that the entire NYA operation had been streamlined and that everything not directly relevant to this single main purpose had been done away with.

August 17, 1971) b2
b7D

Similarly, a circular letter was distributed with the Fall 1971 (Number 7) issue of "Attack!", which indicated that the new NYA program had aroused considerable interest from left wing groups, including the Soviet controlled news organ, "Pravda." This letter stated that denunciation by such an important left wing organ was encouraging to NYA. It was indicated that the new NYA program to break the stranglehold which the "Reds" and "liberals" had established on the minds of a large portion of American youth was beginning to have an effect. It was stated that NYA was engaged in a struggle for the souls of America's youth which was in effect a struggle for the whole future of America and the white race. The letter declared that NYA must be imaginative, innovative, ruthless and practical in this struggle. It further stated that tactics which have not worked must be discarded and new tactics which do work adopted. The letter stated that the new tactics adopted by NYA might be distasteful to some but they were nevertheless necessary. It was anticipated that NYA might occasionally overstep the bounds of propriety or legality and that some NYA activists might go to prison. According to the NYA letter, virtually all right wing literature had been worthless in converting or liberating young people who had already come under the spell of "Reds," since the average right wing newspaper or pamphlet had been immediately recognized as such and discarded as "fascist trash." It was stated, however, that "the bold, forth-right revolutionary tone of 'Attack!' does catch the eye of young

NATIONAL ORGANIZER

NATIONAL OFFICE MANAGER
Charles H. McGuire

EDITOR-IN-CHIEF
William L. Pierce, Ph.D.

Dear American:

The accompanying material which you requested -- or which was requested for you by a friend -- will serve as an introduction to the National Youth Alliance.

As you read over this material, I believe you will see how NYA differs from all other anti-communist and pro-American groups. The difference lies in the fact that NYA does not rely for its effectiveness upon having its members read NYA publications and write to their congressmen. Instead, NYA has an action program for organizing young Americans into a militant force for building a better America. In NYA the emphasis is on tireless organizing, constant involvement in key issues, and direct action. NYA is the one American youth organization which is effectively opposing the tide of drugs, treason, and nihilism sweeping over so many young people today.

There are two ways in which you may participate in NYA's action program:

- 1) As either an Active Member (under 30) or an Associate Member (30 and over).
- 2) As an Official Supporter, by pledging your regular, monthly contributions to support NYA activities. Supportership and membership are not mutually exclusive, of course, and many NYA members also pledge their regular support.

On the other hand, you may be one of those persons who agrees with the NYA program, but is hesitant about joining anything at first glance. If so, use the accompanying reply card to send a contribution which will allow us to mail you all ACTION newsletters, ATTACK!s, and other NYA publications for six months (\$5) or one year (\$10).

In any event, you may be sure that whatever contribution you may be able to make to NYA's effort, will be put to work immediately in the struggle for a better America!

Sincerely,

Charles H. McGuire

On January 20, 1972, a confidential informant advised that the objectives and program of the NYA continued to be those which were originally published in a pamphlet entitled "What is NYA?". The informant furnished a copy of this pamphlet and the objective and program of the NYA is quoted therefrom as follows:

"OBJECTIVE:

"The National Youth Alliance has as its objective the protection and perpetuation of the great traditional values of Western civilization. NYA is working with young people to establish in American life a new order of things based on natural laws; to create a healthy cultural and racial approach to politics reflecting an understanding of authority, discipline, duty, and honor; to achieve an organic society which will purify the Western world of the degeneracy of communism, liberalism, and other manifestations of culture distortion.

"4-POINT
PROGRAM:

- "1. NYA opposes the use of dangerous drugs and narcotics, and pledges to run those who push them off our campuses.
- "2. NYA pledges to neutralize and overcome Black Power -- in particular the unjust demands made upon the educational community.
- "3. NYA opposes SDS and other anarchist groups which would destroy America.
- "4. NYA opposes U.S. intervention in foreign wars, such as the no-win war in Vietnam and the Zionist war in the Middle East."

III. REVOLUTIONARY CHARACTER OF ORGANIZATION

As noted above, announcements circulated with the Summer 1971 (Number 6) issue of the NYA newspaper "Attack!" and the Fall 1971 (Number 7) issue of "Attack!" indicated that NYA had begun a dramatic new phase of its development which included using the most radical and aggressive methods which could be devised in a program of intensive organizing. It was stated that NYA intended to adopt a bold revolutionary tone for its publication "Attack!" and hoped to attract young Marxist militants to the NYA cause.

A series of articles entitled "Revolutionary Notes" was inaugurated in the Summer 1971 (Number 6) issue of "Attack!", which provided readers with instructions and diagrams for the construction of simple incendiary and explosive devices. These articles have appeared in the Fall 1971 (Number 7) issue of "Attack!" and the December 1971 (Number 8) issue of "Attack!". The subject matter of "Revolutionary Notes" in the Summer 1971 (Number 6) issue of "Attack!" was the construction of "medium-sized bombs;" the Fall 1971 (Number 7) issue discussed "improvised detonators" in "Revolutionary Notes;" and the December 1971 (Number 8) issue of "Attack!" described the construction of "FGAN Bombs" in "Revolutionary Notes." The Summer 1971 (Number 6) issue of "Attack!" carried an editorial on page 4 captioned "Why Revolution?". This editorial states in part as follows:

"It is no longer possible to cure the System - to bring FRANKENSTEIN's monster to heel - by Constitutional methods."

* * *

"We do not need to reason with the monster; we need to put a bullet into its brain and hammer a stake through its heart. If that means blood and chaos and battling the alien enemy from house to house in burning cities throughout our land - then, by God, it is better that we get on with it now than later.

"If 'responsible' citizens have no stomach for it, then the task must fall to our radicalized youth. And it is the responsibility of the National Youth Alliance to take a leading position in coming revolutionary developments, so that young Americans can build a revolution for America and for our people, instead of serving as pawns in the alien-controlled, anti-American and anti-White revolution of the Marxists."

A reproduction of the editorial "Why Revolution?" has been reproduced and is attached hereto.

b2

b7D

August 17, 1971)

Why Revolution?

"If, by the instrument of governmental authority, a people is being driven to its destruction, then rebellion is not only the right but the duty of every member of that people."

DURING TIMES OF SOCIAL DECAY and turmoil, the more responsible members of a society will nearly always be found supporting the constituted authority against the hostile or rebellious actions of disruptive elements. For the truly responsible and prudent citizen takes the long view, and he sees in the words of the Founding Fathers that governments long established should not be changed for light and transient causes, that, however grievous may be the defects in any governmental policy or even in any system of government, it is *every* always preferable to *have* those defects and to work for reform rather than to destroy the system.

Order Before Justice

Most injustices and evils on the part of a government are, after all, tolerable, but the absence of order is not. Not only is order an indispensable prerequisite for any form of society and for all human progress, but life itself cannot long continue in its absence.

Western man has been guided in his upward struggle against the millions by an *order* will to order. It is an essential aspect of our racial

order? When have things gone so far that reform of the System is no longer feasible and revolution becomes the responsible alternative? Where should the line be drawn?

Americans More Servile

History does not help us much. The conditions which, 200 years ago, led our forefathers to decide that the line had been crossed are totally unlike those of today.

We could easily justify the toleration of unfair taxes, of governmental meddling in our personal affairs and infringement of local prerogatives, if we could thereby maintain an orderly society in these vastly more dangerous times.

Although we can admire the American colonists' fierce intolerance of tyranny, we, having become more servile and practical, would not rebel under similar circumstances. And if the issues troubling us were no more burdensome than those faced by them, the appellation "responsible conservative" would not be such an epithet of ridicule and contempt today.

Government as a Utility

In order to understand when the support of governmental authority stops being responsible and becomes merely obstinate we must examine the basic premises on which any government's right to exist is founded.

The prevalent view of the government today, shared by

expense — should be kept at a minimal level. Welfare-oriented liberals are more inclined to demand the maximum of services and not worry about the expense.

Not A Dime's Worth of Difference

In the most fundamental sense, however, right and left alike regard government from the same viewpoint: It is a dispenser of largesse, an oiler of the machinery of commerce, a source of favors and privileges, a traffic cop and an errand boy. Its role is to help keep society running smoothly so each citizen can "do his own thing" with a minimum of friction from others who are doing their things.

The consequence of this libertarian concept of government is the catastrophic state of affairs which exists in the Western world today.

We plunder and poison our environment, both physical and spiritual, while the government sits on its hands.

Perversion, drugs, organized crime, and political corruption flourish, and the state can do nothing.

Massive treason occurs in our streets, just as in the highest councils of our land, and rioting aliens burn our cities, while Washington looks on helplessly.

System Is Sick

But this breakdown in operational function is only the outward manifestation of a far graver inner sickness — a sickness

rights, or the regulation of commerce. Contrary to libertarian claims, it has not much to do with freedom either. The preservation of freedom or of "the American way of life" may be convenient concepts around which to build war-propaganda slogans or election clichés, but the reason men are willing to die in battle has more fundamental roots.

Feeling for Own Kind

Though patriotic feelings may be developed and modified in citizens by education or indoctrination, the rudiments of patriotism are inborn. That inborn quality is simply the instinct for the preservation of one's own kind.

The only government which can rightly demand of its citizens loyalty unto death is a government based on this fundamental. A government properly constituted and a state properly conceived serve to express the collective will of a people — that is, of a group of human beings sufficiently homogeneous in their physical and psychical makeup that the fundamental concept of "kind" has real meaning for every member of that group.

Thus, the state — and much less any government — is no end in itself, but only a means to an end. That end is the preservation and advancement of a people — of a racial community.

The Organic State

Only so far as a state is

institution embodying the will and aspirations of a free, white, and proud citizenry to a corrupt, unnatural, and degenerate monstrosity irresponsibly catering to the dissolute tastes, desires, and whims of an increasingly debased, raceless conglomerate of materialistic serfs, products of the urban jungle and the most tyrannical thought-control apparatus the world has ever known.

As the government grinds massively onward, it behaves like a Frankenstein monster out of control. It has become completely alienated from the racial elements which originally created it and gave it life.

This terrible truth manifests itself daily in a thousand ways.

Terror in the Schools

Every White student in the public school systems of America's cities, racially integrated by decree of the Justice Department, has experienced the terror which stalks his classrooms and recreation fields, hallways and restrooms. The daily shakedowns and beatings, indignities and intimidations bring a feeling of hopelessness and despair, because the government responsible for this classroom terror will not even admit that it exists.

Every White policeman and every White fireman, every White soldier, every White judge, every White legislator, every White city official, every White

conflict aspect of our racial soul. To many, then, it seems natural that the best racial elements of our society should be the champions of law and order, while the worst elements should be the principal proponents of disorder, revolution, and chaos.

Yet, as with most things, there are limits beyond which blind support of governmental authority ceases to be a virtue and becomes instead an evil.

The great question of our day is: How much corruption must be tolerated for the sake of

government today, shared by both liberals and conservatives, is that it is an expensive but necessary public utility whose principal functions are to maintain law and order, mediate squabbles among the citizenry, and provide certain general services, such as national defense, mail delivery, and a bureau of weights and measures.

There is a diversity of opinion, of course, on details. Laissez-faire conservatives take the attitude that the services provided by government — and, consequently, its operating

graver inner-sickness — a sickness stemming from errors of the most fundamental sort in the very premises on which today's government is based.

It is clear that the men who sacrificed their lives at the Alamo had a deeper motivation than a desire to preserve the police power of the state. And those who died on Iwo Jima did not do so for the sake of the farm subsidy program or an independent judiciary.

Patriotism, in fact, has very little to do with law and order, the protection of property

Only so far as a state is identified with the vital interests of a people is it entitled to the allegiance of that people. Such allegiance is then equivalent to loyalty to one's own kind, and such a state is *organic* in that its existence stems in a natural — one could even say *biological* — way from a natural community.

Any racially self-conscious citizen finds himself subject to two allegiances: that binding him to his own kind and that obligating him to his government. Of the two, the first has precedence. Only in an organic state do the two coincide.

Multiracialism Is Absurd

A government which claims to represent the vital interests of a multiracial society is not only unnatural but absurd. To whom, for example, does the Bantu in South Africa or the Arab in occupied Palestine give his loyalty — to the government or to his own kind?

Neither the Afrikaaners nor the Jews are so foolish as to imagine it will be to the government, despite the multi-racial baloney to which they feel obligated to give lip service. For this reason, both Jew and Afrikaaner take care to keep all the strings of government in their own hands.

We in America have not been so smart — but, then, no other nation has ever been subjected to such a program of liberal brainwashing and internal subversion as we have.

A Corrupt Monstrosity

The United States government has, through slow and (until the last 20 years) nearly imperceptible change, been transformed from an organic

feels the loss of spirit and efficiency which has come as a result. He is sickened and discouraged by the slackening standards in his once-proud profession, by the growing corruption and rising drug abuse on the part of those who wear his uniform.

WAR GUILT REEXAMINED

Since the end of World War II, a new generation has been brought up to believe that the responsibility for starting that terrible war rests exclusively with Germany. It has been further contended that the leaders of the Third Reich conspired to start the war, and that their foreign policy was maliciously geared to provoke this global conflict.

Among those who unquestioningly accepted these propositions was the eminent British historian A.J.P. Taylor — until he began the research for the book offered here. To his surprise, Taylor discovered, upon examining the state documents of the nations involved, that Germany was no more responsible for the Second World War than England and the United States.

The Origins of the Second World War is the result of his research and offers a detailed, step-by-step account of the events leading up to the War's outbreak. Taylor's book is the first reliable history of World War II to offer a balanced summary of who provoked whom.

"Blasting the Historical Blackout" is an exceedingly valuable review of Taylor's *Origins of the Second World War* by one of America's leading historians, the late Harry Elmer Barnes. His review provides important collateral information for the re-evaluation of German war guilt.

nation. If he has any pride of workmanship he must sorrow as the old, hard-earned traditions of skill and excellence yield to the alien tide of "equality."

Every responsible and racially conscious public-school teacher, who, year by year, sees more and more lies and distortions in the textbooks he must use — textbooks which are being continually "revised" by decree of the Department of Health, Education, and Welfare — knows the shame of aiding in the planting of these lies in the minds of his young charges.

Schools Racially Destructive

This is among the most deadly of all the System's racially destructive activities. Through its iron control over the educational process it deliberately alienates an entire generation of young Americans from their cultural and racial

antecedents. It applies the corrosive compound of half-truths and lies, calculated omissions and subtle psychological tricks to destroy all bonds between the individual and his racial community.

Our schools do not truly educate; instead they produce young people who, at worst, are so filled with artificially instilled feelings of guilt and self-hatred, the consequence of never-ending propaganda about "White racism" and the oppression of minorities, that they actively and consciously collaborate with the avowed enemies of our people. At best, we get young men and women who, having been denied the knowledge of the greatness and uniqueness of their race and of their responsibility as the bearers of that greatness and uniqueness, are indifferent to any appeal to

NYA — the Organization for You!

The National Youth Alliance is a growing, dynamic organization of young men and women concerned about America's future and determined to take a hand in shaping that future. Barely two years old, NYA already has 1,000 members throughout North America.

Originally established to provide a healthy alternative to the "drug culture" and mindless self-destruction of today's campus left, NYA is based on the idea of quality—as opposed to equality—in all things.

What We Want

and accustomed to self-discipline can build the future we want in America, NYA unconditionally opposes the use of dangerous drugs and narcotics. Since drug usage is a growing menace undermining the lives of more and more young people, NYA pledges an all-out fight to stamp out this menace.

2. No Black Power!

In order that young Americans may live, work, and study in a wholesome environment free from intimidation, NYA pledges to neutralize and overcome the noisy, arrogant,

4. No More Phony Wars!

NYA is opposed to the further sacrifice of American blood and wealth in foreign wars which are not absolutely essential to the advancement of American interests.

NYA recognizes that America cannot have a sound foreign policy until revolutionary changes in this country have brought about a sound government with a radically different outlook than that offered by either of the major parties.

Therefore, NYA opposes further procrastination in the no-win Vietnam war

racial solidarity. They are all converts to the liberal religion of individuality — the view that the individual exists solely as an end in himself.

Every year — every day — that this deadly process continues brings us closer to that point of no return when there will be so few uncorrupted escapes from the public mind-molding institutions that no effective recourse to the System can any longer be built.

Government Genocide

The United States government does not carry on its genocidal activities blindly or accidentally or against its will. It does not act reluctantly because of pressure from the alien-controlled newspapers and broadcasting networks.

The agencies of government are integral parts of the entire, corrupt System. They work hand in hand with the propaganda media to quench

from p. 5

any spark of racial consciousness which might threaten their rule.

Ultimately the System, in order to secure its own evil existence, seeks the destruction of every last remnant of the only race which, having created it, is also capable of destroying it.

Servants of the System

The time has come when we must wake up and realize that the policeman on the street corner and the Congressman in Washington are no longer either our guardians or our servants. They are the guardians and servants of the System — though not necessarily consciously or with malice aforethought. More often, they are only timeservers, more-or-less powerless cogs in the machine themselves.

Nevertheless, willingly or unwillingly, it is the System they serve.

The governmental structure

which our forefathers built up to serve and protect us has been turned against us. Its strength is no longer our security but our peril. Its weaknesses are no longer our misfortune but our opportunity.

The line has been crossed.

Among racially conscious Americans there is widespread awareness of the destructive role of the System, but an equally widespread paralysis of the will where any remedy is concerned. Part of the fault lies in the fact that with Blacks and Jewish liberals and the spoiled, hairy brats of the Establishment shouting for a revolution, everyone else is inclined to regard revolution as a dirty word. To most mature and thoughtful patriots it is an abomination.

A Trap for Conservatives

This attitude arises from a failure to understand that the "revolutionary" tactics of those elements presently rioting in the

streets are only a means of further emphasizing those things we already hate worst in the System. They only want to push us even faster along the road to racial ruin.

Thus, our "responsible conservatives" (and others) fall into the trap of saying: "No, the System is going fast enough the way you want it. We will oppose your revolutionary demands by defending the System against you."

And they still vainly seek solutions in the realm of reform rather than revolution: Write a letter to your Congressman. Send a dollar to help awaken your fellow citizens to the dangers of communism. Vote conservative. Join a tax protest. Pray that the earth will open and swallow the Supreme Court.

Present Prosperity a Curse

Which the average White working man can own a color TV set, two new cars, and a house in the suburbs, it is very

difficult to think revolution. We are comfort corrupted. No matter how bad the System is, we are unwilling to sacrifice our material luxuries for the sake of securing the future of the race.

We find too difficult to accept that it is better that we suffer the worst privations, the most grinding poverty, the most tyrannical oppressions than that, wallowing in comfort, we allow the race to die.

And so we keep looking for easier ways.

But there aren't any easy ways. Maybe there were 50 years ago, but not today.

It is no longer possible to cure the System — to bring Frankenstein's monster to heel — by Constitutional methods.

Democracy Meaningless

When the electoral process ceased being a person-to-person evaluation and choice of their representatives and leaders from among themselves by a properly qualified citizenry, the governmental forms handed down to us by a free Anglo-Saxon yeomanry lost their original meaning and relevance.

Today's political shell game, in which the entire public herd is allowed a "choice" from an array of media-generated images, makes a cynical mockery of the very concept of representative democracy.

As long as public opinion is not the spontaneous consensus of a racially and culturally homogenous populace but is the artificially created and manipulated concoction of a small clique of racially alien mind-molders, it is idle to contemplate bringing about, by System-approved means, any

REVOLUTIONARY NOTES ①

As the progressive disease of liberalism makes further inroads in the American body politic, activists of all persuasions have a growing scope for the pursuit of revolutionary activities. Until now, direct action has been the nearly exclusive preserve of America's internal enemies.

This and future Revolutionary Notes will endeavor to provide the patriot with the same information which is already in the hands of our leftist enemies.

The emphasis will be on the manufacture of urban guerrilla warfare

elevator or an average-sized office. It can blow a respectable hole in a masonry wall. It can rupture any gas or water main or disable any power transformer, pump, or generator if properly placed. Even if detonated in a large lobby, it can cause enough damage to windows, doors, ceilings and wall surfaces to have a profound psychological effect.

A bomb containing between five and ten pounds of high explosive and capable of being carried in an attache case or a large handbag, or concealed in a

Medium-Sized Bombs

The medium-sized bomb — i.e., an explosive device small enough to be concealed on the person (under a coat, or in a briefcase, handbag, thermos bottle, or the like), yet large enough to do major structural damage to buildings, vehicles, etc. — is one of the most useful tools in the arsenal of the urban guerrilla. It is difficult to think of any significant revolutionary campaign in the 20th century which has not employed the bomb as a means for building a general climate of unease and for undermining the confidence of the populace in the constituted authority.

Urban America is made to order for the determined revolutionary armed with a stock of medium-sized bombs. Skillful use of this important weapon alone, by a mere handful of intelligent terrorists, can virtually cripple any major city in America — at least temporarily.

Although there were more than a thousand bomb incidents reported in the United States in 1970, they were scattered, sporadic, hit-or-miss, uncoordinated, and, with few exceptions, amateurish. Nevertheless, even bombing of that sort can have a cumulative, non-trivial effect on the public consciousness. A well-planned campaign of bombing can wreak utter havoc.

Bomb Capabilities

A bomb containing one pound of high explosive and capable of being carried in a small purse or concealed by a folded-over newspaper can, for all practical purposes, destroy an automobile. It can completely wreck an

large handbag, or concealed in a No. 10 grapefruit-juice can, can blast the entire facade off a small office building. It can do enough structural damage to the service core of a large skyscraper to disable all elevators and cut off all electrical power to the building. If left under the seat of a subway car over the front or rear axle, it can derail the train and cause a major subway tunnel blockage.

Construction

For our purposes, a medium-sized bomb has three components: the main (secondary) explosive charge, the primary explosive charge (detonator), and the hardware.

In this Note we will consider the most common case, in which commercial dynamite and blasting caps are both available to the bomber, and only the hardware need be homemade. Later Notes will deal with the improvisation of both secondary and primary charges.

The sketch shows the general layout of an electrically initiated time bomb. The only essentials, other than the dynamite and the electric blasting cap, are a flashlight cell and a watch (pocket or wrist) in reasonable running order.

The watch is prepared by removing the movement from its case and drilling a small hole in the plastic crystal at a point about halfway out from the center. The hole can also be made with a red-hot sewing needle.

The snipped-off end of a small nail or brad is fixed in the hole so that one end extends almost (but not quite) to the dial face and the other end projects about an eighth of an inch above the crystal. A dab of epoxy glue is used to firmly cement the nail end in place. (It is important to avoid the use of any non-epoxy glue which does not set rigid.)

A short length of light, flexible, insulated wire is soldered to the upper end of the nail. (The kind of wire used in portable transistor radios is ideal.)

The lower end of the nail must be bright and clean. It is scraped with a knife or a bit of fine sandpaper to be sure.

The minute hand is carefully removed from the movement and discarded (unless a delay of less than one hour is desired). The edge of the hour hand is scraped or sanded until it is bright, and it is checked for a good contact with the nail. If necessary, the tip of the hour hand is carefully bent away from the dial a bit.

Before the movement is replaced in the case, it is allowed to run down completely (unless the bomb is to be used immediately).

When the bomb is to be used the watch is wound fully and the desired time interval set between the hour hand and the nail. At the last possible moment, the bared ends of the wires from the blasting cap are twisted together with the wires from the flashlight cell and the watch, and all components are taped securely together with plastic tape.

If the bomb is to be inserted in a metallic container, such as a lunch box or a flashlight case, all exposed wire surfaces which might contact the container are first covered with tape.

In the next issue: improvised explosives.

System-dependent means, significant governmental ch... contrary to the wishes of... who control the System.

Yet, millions of optimistic patriots perennially convince themselves that they have found an honest politician who, if they can sneak him past professionals and get elected, will outwit string-pullers and return American government to hands of its proper owners. I drastically underestimate cunning of their masters.

Other millions believe public enlightenment answer. For example, under the impression that catastrophic 1954 Supreme Court decision on racial integration of our schools the consequence of the being supplied with false information on racial differences. They seriously misjudge the motives of beast.

A Stake Through The Heart

We do not need to reach with the monster; we need put a bullet into its brain hammer a stake through heart. If that means blood chaos and battling the enemy from house to burning cities through land — then, by God, it is that we get on with it now later.

If "responsible" citizens have no stomach for it, then the must fall to our radical youth. And it is responsibility of the National Youth Alliance to take a lead position in coming revolution developments, so that you Americans can build a revolution for America and for our people instead of serving as pawns the alien-controlled anti-American and anti-wh revolution of the Marxists.

The Fall 1971 (Number 7) issue of "Attack!" included an editorial entitled "What We Must Do Now," which advocates 'revolutionary action' by right-wing forces in America. "Revolutionary action," according to this editorial, "is sabotaging the means by which the System rules;" "killing the creatures who comprise the System and those who collaborate with the System;" and "waging real warfare against the System, using whatever means are most effective in weakening, in crippling, in ultimately destroying the System." This editorial is further quoted in part as follows:

"We must think * * * in terms of assassinating federal judges, of burning the stores of businessmen who act as if they are more interested in what's good for business than what's good for White America, of dynamiting the TV transmitters and newspaper presses of the alien news manipulators, of harshly punishing Whites - - male or female - - who fraternize sexually with non-Whites, of putting the fear of terrible retribution into every treacherous politician and System-serving editor, advertiser, bureaucrat, or other public person."

hurt, and it helps to relieve our frustrations. But when we have come to understand the utter irrelevance of this hobbying and have awakened to the fact that we are losing ground every day that we fail to inflict losses on the enemy, we must then make up our minds to move beyond publishing and picketing and demonstrating and pulling stunts designed to get newspaper coverage.

Terrible Retribution

We must think instead in terms of assassinating federal judges, of burning the stores of businessmen who act as if they are more interested in what's good for business than what's good for White America, of dynamiting the TV transmitters and newspaper presses of the alien news manipulators, of harshly punishing Whites — male or female — who fraternize sexually with non-Whites, of putting the fear of terrible retribution into every treacherous politician and System-serving editor, advertiser, bureaucrat, or other public person.

A Twofold Purpose

The immediate purpose of such revolutionary action is twofold. In the first place, we cannot begin winning the war until we begin hurting the System.

If that were all, however, we would be doomed to sure — though, perhaps, heroic — failure. The System is too strong and we are far too weak.

Our second — and absolutely essential — purpose in committing revolutionary acts is to turn the public —

Average American finds resistance to the System an unacceptable alternative. He wants to take the easy way, the safe way. He doesn't want to do anything that will hurt his business or jeopardize his job.

He doesn't like reds or rioters or Marxist judges, but he's willing to make concessions to them if they will leave him alone. He's a lot easier to bully than he would have you believe.

Impressing Mr. Average

The proper aim of the revolutionary right — our aim — is to impress two things on Mr. Average's mind:

1. Going along with the System isn't going to be as easy and painless as you thought. There will be chaos, turmoil, physical danger, and material loss for you as long as you stay with the System, because we will raise continual hell. You might even get killed.

2. The System's plan for America is not so inevitable after all. The System can be opposed. A monkey wrench can be thrown into its works. Its untouchables can be killed.

They Will Remember

This impression will never be formed on the public mind by printed programs or by verbal boasts; but only by revolutionary deeds. Give them some real and meaningful revolutionary action, and we will be surprised how many of the hair-curler-and-station-wagon set will remember they're White.

If we can find the courage and the resolution to act — and the brains and discretion

tory-produced commercial or military explosives, which are usually safer and more reliable than improvised explosives. There may be times, however, when the difficulty in obtaining commercial or military explosives will make it worthwhile for the guerrilla to improvise or homemade explosives. Sometimes, too, while dynamite, TNT, or other secondary explosives may be available, blasting caps may not be, so that the ability to improvise a blasting cap from more-or-less easily obtainable materials may be very useful.

The Primary Explosive

There are many different high-explosive materials which may be used in blasting caps under emergency conditions, but nearly all modern explosives manufacturers have standardized on the use of lead azide, and this Note will confine itself to lead azide caps.

Future Notes will deal with the preparation of other primary explosives, such as fulminates, azetylides, and peroxides. Some of these other primary explosives may be prepared from materials much more widely available than those used for lead azide, but they suffer from one or more defects in comparison with lead azide.

The following procedure for the preparation of lead azide is very simple and straightforward, comparatively safe, and yields a reliable and effective product.

The two raw materials required are lead acetate (sugar of lead) and sodium azide sodium triazide. Both these substances are nonexplosive (but highly toxic) and fairly readily available.

hydrate crystals and 3/4 grams of sodium azide in 30 ml (about 1 fl. oz.) of water each. Suitable containers are 100 ml beakers.

Weighing of the chemicals can be done on one of the very "inexpensive" balances which is furnished with any child's chemistry set. These can be purchased for two or three dollars at a large Sears or Montgomery-Ward store.

If no balance is available, use a slightly rounded teaspoonful of the acetate and a slightly rounded half-teaspoonful of the azide.

When both chemicals are completely dissolved, pour the acetate solution into the azide solution while stirring. A dense, white precipitate of lead azide will immediately form.

Filter to separate the lead azide and rinse with about 50 ml of water in the filter paper. In a pinch, a piece of newspaper can be used for the filtration.

Dry the lead azide on the filter paper in a warm, dry place, such as a furnace room or a utility closet. Avoid exposure to direct sunlight, which causes the lead azide to decompose. It is ready for use as soon as it is completely dry.

Lead azide is a rather sensitive high explosive, which can be initiated by percussion or friction as well as heat. It should be handled with great care.

Electric Blasting Cap

A general-purpose electric cap, suitable for initiating dynamite, nitrostarch, TNT, picric acid, PETN, RDX, and a number of other secondary explosives, can be made with 1 gram of lead azide, a miniature flashlight bulb, and a short piece of aluminum tubing.

Prepare a 2-inch length of thin-wall aluminum tubing 1/4 inch to 5/16 inch in diameter by pinching one end shut with a pair of diagonal cutting pliers. Two pinches at right angles will produce a cross-shaped closure which does not increase the diameter of the tubing. Seal the closure with a small dab of epoxy glue.

A suitable piece of tubing can be cut from a spoke of a TV antenna with a hacksaw. A cheap antenna of the "rabbit ears" variety yielded enough tubing of the right diameter for ten of the caps described here.

Firmly pack about a gram of lead azide into the pinched-off aluminum tube, using a lollipop stick to tamp.

Prepare the miniature flashlight bulb by breaking away the glass above the filament only. Scratching the glass with the edge of a file first helps in making a proper break in the bulb.

By far the best bulb to use is one of the "grain of wheat" types sold in electronics supply stores. These are rated at 1 1/2-3 volts, are very small, and have wires already attached.

The broken cup of glass surrounding the filament is gently packed with lead azide. Care must be taken not to damage the filament during this operation.

Next, wind a 1/4-inch-wide strip of paper around the bulb until it will just slip into the

aluminum tube. Slide the bulb and paper down until they touch the lead azide already packed into the tube. Fill the open end of the tube with epoxy cement.

A minimum of 3 volts should be used for reliable initiation of this cap. Two (better, three) fresh penlite cells in series or a fresh 8-volt transistor-radio battery will do.

More Sensitive Cap

A modification which yields a much more sensitive cap is easily made. Instead of packing lead azide around the bulb filament, apply a small amount of a mixture of approximately equal portions of lead azide and nitrocellulose directly to the filament.

For the nitrocellulose, use a couple of the tiny, cylindrical grains of propellant from a rifle cartridge.

Macerate and blend the propellant and azide thoroughly with a couple of drops of acetone (obtainable from behind the counter at any drug store), using a toothpick. Carefully apply a small drop of the paste to the filament and let it dry. Leave the rest of the bulb empty, and slide it down into the tube as before, so that the filament is just above the lead azide surface in the tube.

A single penlite cell will cause a cap prepared in this manner to detonate.

Mr. KOSYGIN's back before being hauled away by police." According to the article the attacker had been identified by police as GEZA MATRAI, a Hungarian emigre, who reportedly belonged to the "far-right Edmund Burke Society."

India Minister Talks About Asian Development

Minister of External Affairs, Mr. Ramesh Chandra Prasad, Minister of External Affairs at the Embassy of India, Washington D.C., spoke last Saturday on "Economic Development in South Asia." The speech, held in the Faculty Lounge of the University of Cincinnati, was sponsored by the Indian Students Association.

Concerning the February, 1971 election in India, Prasad said, "It will result in stability and give rise to new economic development in the country."

In that election, Indira Gandhi was elected as prime minister of India. Prasad said there is a "new orientation in India's government, that of socialism." According to Prasad, the Indian definition of socialism has succeeded in providing a focus and the idea of social progress to a policy.

The India mission of human values is explained with the democratic process. Prasad said, "India is a democratic society and its many traditions of staying

aged back and forth about the socialist line. When someone mentioned the recent Supreme Court decision on 'burning' he stopped him. 'The Supreme Court will decide by history and strategy.'

More provocative questions were asked and some minor shouting matches resulted. They did not last too long, however.

Tifer quoted several other speakers. When questioned with the statement that there are no religious groups and not a race he replied, "You can't always tell a Hindu and you can't always tell a Christian, but you can always tell a Jew."

Also in attendance at the speech were two differently colored persons. They were Kenneth Hoop, secretary of the local chapter of the NYA, and John Baker, a member of the

"EDITORIAL -- CARTO ENDORSES NYA"

Certain enemy organizations financed by the Anti-Defamation League (ADL) have been attempting to deny that Willis A. Carto is a member of the NYA. In spite of lies told by ADL enemy agents, Willis Carto is an associate member in good standing and is expected to attend the NYA conference in Dearborn on July 3rd and 4th.

Carto, who is the founder of the NYA and who has publicly endorsed the leadership of NYA by Patrick Tifer, has recently been subjected to a series of vicious smears by the Zionist-liberal WASHINGTON POST and other such controlled papers.

Carto has been associated with the AMERICAN MERCURY/WASHINGTON OBSERVER public in addition to a number of other patriotic ends.

RECIPIENTS OF GENERAL DEL VALLE'S LETTER IN SUPPORT OF NYA ARE ADVISED THAT THIS IS A PERSONAL ENDORSEMENT AND NOT THAT OF THE DEPENDERS OF THE AMERICAN CONSTITUTION. THE NYA IS PROUD TO HAVE THE SUPPORT OF THIS COURAGEOUS MARINE GENERAL.

NYA LAUNCHES UNIT INSIDE U. S. ARMY

Many people these days have read with utter disbelief of the criminal breakdown of authority in our U. S. Armed Forces. Zionist Admiral Zumwalt orders beer and long hair for the Navy--Gen. Westmoreland approves a program of racial sensitivity training for White GI's and Marine officials turn their heads as some traitorous leathernecks disgrace the Corps by participating in a pacifist rally in uniform.

The shocking rise in drug addiction, the uncontrolled dissemination of pacifist propaganda on military bases and the negroifying of our Armed Forces is wrecking what once was the finest military machine in the world.

Realizing the problem and also realizing the fact that the New Left has already extended itself into America's Armed Forces, the NYA is taking immediate steps to counter this anarchial situation. Luke Herda, former Statecraft leader in Zanesville, Ohio and now serving in the US Army, has agreed to launch a NYA Unit inside the Army to promote our Four Point Program and also to begin restoring some respect to our ailing Armed Forces. Any interested soldiers should write the NYA care of Center Line, Michigan.

Also, any member of the Armed Forces will be placed on the NYA mailing list for free. Just send us his name.

LIBERALS REACT TO NYA ACTION

HIGH SCHOOL TERROR - - NYA ACTS

On Tuesday, Jan. 5th, a white girl was attacked by three savages in the halls of Mt. Clemens High School. This beating occurred during a wild melee which broke out on the streets after black students broke up a meeting between White students and the school faculty. The students were meeting to air complaints to the school board about a reign of black terror that had been going on in the school for the last several months. The school was forced to close when the blacks continued their animalistic acts.

A NYA flying squad immediately appeared on the scene to organize White resistance. Plans for leafletting of area high schools and the downtown were made and implemented. Hundreds of MCHS students voiced their support and gratitude for the NYA and their quick response and help against the black savages.

As was to be expected, the liberal-criminal controlled news media loudly voiced their disapproval of the NYA-led student action. Such terms as 'racist', 'bigot' and 'neo-Nazi' were used to dampen legitimate White concern for their safety and rights. This was merely a liberal cover-up for their anti-white bias which all too often has dominated the press.

Numbers of students from MCHS have joined together to form a NYA unit so that 'never again' will they be confronted with black animalism.

N Y A TV SHOW

The National Youth Alliance scored an impressive victory recently when it was able to produce its own television show. For the first time, the Right was able to talk over the TV airwaves free of liberal harassment, moderators and controlled newsmen.

The show, called 'White Life' was moderated by NYA National Chairman, Patrick Tifer. Appearing as guests on the show were Mr. Ken Petty, a student at Harper Woods High School, Mr. Wayne Wade, a student at St. Basil's Junior High School in East Detroit and a Mr. L.D. Jack, a resident of Pontiac and an authority on the recent school disturbances there.

The guests represented a cross section of White thought in the Detroit area and together they gave a comprehensive explanation of what was happening in the schools.

Mr. Tifer also talked about the need for the development of a White Life style and emphasized the healthy aspects of Racial pride in our people.

NYA members throughout the country are encouraged to participate in any radio and TV talk show available to them. White Life was shown on WTWS Channel 56 on January the 23rd.

OFF CAMPUS

NYA and Statecraft-led student opposition at the North Carolina State University (NCSU) campus forced Abbie 'Hooked-Nosed' Hoffman to cancel his appearance at a radical rally planned for NCSU on January the 11th. Throughout the day, leftwing agitators had been stirring trouble on campus with the appearance of communist fist posters all around the mall and class areas.

Knowing of his appearance days in advance, a NYA team organized student opposition. On the morning of the 11th, a large banner appeared where Big Bear Hoffman was to appear--"Abbie Go Home!" Mobile squads of NYA-led students roamed the halls of NCSU tearing down the fist posters and replacing them with American flag decals.

Receiving word of this, Chicken Abbie refused to appear. NYA Chairman Patrick Tifer applauded the courageous action of the NCSU students for refusing to allow their campus to be the scene of leftwing radicalism.

Once again, the NYA has proved itself as the only effective organization which can blunt leftwing anarchy in our schools. Interested North Carolina students should write:

Right-Wingers Plan War Trial

Youths Set Probe of 12 Figures

The right-wing National Youth Alliance Saturday announced it will stage a Vietnam war crimes trial and indict 12 prominent political figures for conspiring with international bankers to begin the war.

Patrick Tifer of Warren, national chairman of NYA, said those to be indicted would include Walt Rostow, Robert S. McNamara, David and Nelson Rockefeller and Daniel Ellsberg.

Tifer, 24, said that NYA would ask the death penalty.

"The war was started on behalf of the international bankers to destroy American youth and amass vast war profits," Tifer said at the NYA's national meeting at Eastland Center. "We intend to bring the real war criminals home."

He did not say when or where the trial would be held.

The NYA, whose goal is to "organize youth around white life," also said it would file a damage suit against the Congress Inn in Dearborn for not permitting their meeting to be held there. The Inn canceled NYA reservations there last week after allegedly receiving bomb threats.

A counter-demonstration by the Detroit Youth Against War and Fascism, to protest the NYA meeting, apparently was called off.

Sitting behind the emblem of the National Youth Alliance is Patrick Tifer of Warren, the national chairman of the right-wing, white supremacist group. Standing is C. B. Baker, the publisher of NYA's newsletter, Statecraft.

NYA Files Complaint Against Inn

The National Youth Alliance, a neo-Nazi group headed by Patrick Tifer, is launching a two-fold program against the Congress Inn in Dearborn.

They have issued a complaint with the Michigan Civil Right Commission charging that the Congress Inn denied them their civil rights in refusing to let the NYA hold a conference there on July 3 and 4. Tifer contends that the Congress Inn discriminated against them on the basis of their racial beliefs.

The Congress Inn canceled the NYA's reservations

three days before their scheduled convention because they had received threatening phone calls.

In the NYA's war crime indictments issued at the Eastland Shopping center on July 3, Tifer said, "The war was started on behalf of the international bankers to destroy American youth and amass vast war profits." Tifer feels that it was pressure from this conspiracy of

bankers that forced the Congress Inn to cancel their contract.

STATECRAFT

Alexandria, Virginia 22313

The following war crimes indictment was written for the National Youth Alliance by C.B. Baker, Publisher of STATECRAFT, at the specific request of Patrick A. Tifer - President of the NYA.

Mr. Baker is presently engaged in in-depth research preparing the prosecution's case for the upcoming NYA war crimes trial. The trial will show American youth WHO IS REALLY BEHIND THE VIETNAM WAR. The Trial will also prove that those very leftist revolutionary leaders THEMSELVES ARE ACTUALLY AGENTS OF THE CAPITALIST SYSTEM WHICH THEY ARE SUPPOSEDLY FIGHTING AGAINST.

The NYA indictment brought bomb threats, cancelled meeting halls, mobs of howling leftists, and finally an ADL entrapment of Mr. Baker himself. Fearing the light of public exposure, THE INTERNATIONAL BANKERS INSTRUCTED THEIR ADL AGENTS TO SET UP A TRAP TO PREVENT MR. BAKER FROM WORKING ON THE WAR CRIMES TRIAL - see enclosed letter for complete details.

YOUTH INDICTS

Patriotic and anti-communist American youth have "indicted" 12 bankers, intellectuals and politicians for "war crimes."

The indictment was read and tumultuously approved at the national conference of the National Youth Alliance, held July 3 and 4 in Detroit.

did commit high treason, war crimes against humanity, and various other crimes and felonies against American youth and the American people as a whole, in that they did plot and conspire to destroy the American Nation in order to create a "One World" totalitarian dictatorship upon the projected ruins of American society, all in violation of The United States Constitution, the law of national survival pertaining to all sovereign nations and the individual American's basic right to life granted by God Almighty.

The National Youth Alliance, with the authority vested in it by the youth of America, shall conduct a public trial of the above named defendants. The accused will be notified as to the exact time and place of the tribunal.

IN THE NAME OF AMERICAN YOUTH

Patrick A. Tifer

President—National Youth Alliance

Unusual efforts were made to prevent the meeting from being held. The Congress Inn, which had a contract with the NYA, bowed to pressure and refused to allow the meeting. At the last moment another location was secured, only to be attacked by a howling mob of "Youth Against War and Facism" and bomb threats. The communists accused the NYA of trying to blame Jews for wars.

Speakers included Lou Herda, who heads the Servicemens' National Youth Alliance. Also Charles B. Baker of Statecraft, Brad Smith, Ken Hoop, Cliff Ward and Bill Gillespie.

On October 20, 1971, a confidential informant furnished the October 1971 (Volume 1, Number 5) issue of "White Life," the NYA newsletter published at Box 202, Center Line, Michigan. This publication reports concerning NYA activities and describes sweeping changes which occurred as a result of the annual Board of Directors meeting in Washington, D.C., on September 4, 1971. The sweeping changes included the election of a new slate of officers and planned projects of the NYA, including the NYA War Crimes Trial which was scheduled to be held in Washington, D.C., on April 29 (1972). A reproduction of the October 1971 (Volume I, Number 5) issue of "White Life" is attached hereto.

NYA Leader Arrested in Pontiac Busing Fight

Vol. 1 No. 6
Oct. 1971

PONTIAC, MICH.,--SEPTEMBER. NYA Leader Patrick Tifer was arrested Wednesday, Sept. 8th, as one of many White citizens fought the forced busing program. Tifer was arrested by Pontiac police as he headed a group of citizens in a march at the school bus yards (scene of the recent bus bombings). Charged with disorderly conduct, Tifer vowed to continue the struggle for White Life. Earlier in the week, 5,000 White people marched through the streets to protest the court-imposed busing plan. The federal judge, Damon Keith, who ordered the busing plan is a black Jew and prominent in many leftist and Jewish organizations.

On Sept. the 14th, a number of NYA members joined 800 other concerned White parents and students in a massive protest in front of the Fisher Body plant of General Motors. The demonstration resulted in the closing of two GM's plants in Pontiac as 60% of the work force at the plant stayed off the job in a show of support for the plight of the people of Pontiac. The National Youth Alliance has figured prominently in the Pontiac busing dispute as evidenced by the news article reprinted in part below. During the month of September over 10 radio and television stations called the NYA for various news interviews and comments. Mr. Tifer also appeared on West German television which was doing a news story on busing in the USA. The NYA spokesmen called for an end to forced busing and advocated White Life.

Rightists worry Pontiac

PATRICK TIFER
On the Right

By MICHAEL WENDLAND
News Staff Writer

Patrick Tifer, the 24-year-old head of a small right-wing group called the National Youth Alliance, positioned himself at the head of the picket line and struck a serious pose.

A companion hurriedly snapped a picture and Tifer stepped aside to allow the pickets to pass.

"That's for our organization's publication," said Tifer. "We want to make sure our people know we support what's happening in Pontiac. This way, our people know what's happening."

front of General Motors Corp. Fisher Body plant, which had been shut by pickets from the National Action Group (NAG) as a protest over court-ordered bussing to integrate the city's schools.

TIFER HAS BEEN a frequent participant in NAG events lately. He has passed out racist literature warning of a "black take-over," has marched with NAG pickets and was arrested last week, accused of trying to block a school bus from leaving a north side Pontiac depot.

He has been subpoenaed to appear next week before a federal grand jury investigating the Aug. 30 bombing of 10

miting, the FBI charges, was the result of a plot by the N.Y. Klux Klan.

"Our group is very definitely what you would call right wing," confesses Tifer, who lives in Center Line. "We are dedicated to stopping the black revolt and preserving the white lifestyle of America."

Tifer's organization is one of a growing list of right-wing organizations causing increasing concern by NAG, which is made up of some 5,000 Pontiac taxpayers who say they are not opposed to integration — just bussing.

DETROIT, MICH.,--SEPT. 9. The federal government, in a massive attempt to smash White resistance to liberal-imposed tyranny, launched a night-long terror campaign against leading rightists in the Detroit area. One of the chief targets was the National Youth Alliance which has proven itself in the last few months as a real threat to the insanity of liberalism.

On Sept. the 9th, several FBI agents showed up at the home of NYA leader Patrick Tifer and demanded entry claiming that they were searching for explosives. Another NYA member, who was in a hospital caring for her sick child, was set upon by two federal policemen. A third NYA'er came home to find his wife in tears as five FBI thugs were sitting there waiting to "question" him after forcing their way in. In addition, Patrick Tifer was handed a subpoena and ordered to appear before a federal grand jury which will be investigating the bombing of the school busses.

On Sept. the 10th, NYA members appeared at the federal building in downtown Detroit in a public show of support for the six members of the KKK who had been arrested on trumped-up charges of conspiracy. Patrick Tifer, NYA Chief, appeared on a whirlwind of TV and radio shows to explain the White side of the Pontiac controversy, and vow that the White spirit would not be crushed or silenced.

Teen Beaten, Shaved

BRANKLIN -- A township 14h was beaten under bizarre circumstances in the backyard of his house early today. Police have made two arrests but have declined to characterize a motive for the attack. The youth, William Bakalar, of 508 Hamilton St., was drugged by two other teens the same age as he was lying out of his car in the yard of his house at 2 p. today, say police. The attackers, police said, put handcuffs on one of his arms and stuffed a glove in his mouth. They then cut off his hair and put a blanket over his head and began beating him with a blunt instrument. Police have what they believe was the attack weapon, but they declined to say what was.

SOMERSET, N.J.--SEPT 2ND. NYA members will be happy to learn that the three young men who were jailed for beating and shaving a drug pusher (as reported in WHITE LIFE bulletin No. 4) have been released and charges against them are expected to be dropped. The criminal who had his hair shaved is now in jail on three separate charges relating to drug crimes. At the time, Unit leader Bill Bellofi (Box 338, Somerset, NJ 08873) stated that if the government could not solve the drug problem than it was the duty of young people to eliminate the problem on their own. NYA members in the Garden State loudly supported these brave young men who have now been vindicated. Point No. 3 of the new NYA Seven Point Program says that the NYA stands to save American youth from the deadly peril of drugs. The New Jersey Unit of the NYA is leading the way in implementing this phase of the Program.

DRAMATIC CHANGES IN NYA

WASHINGTON D.C.--SEPT. 4TH. Some important and sweeping changes occurred at the annual board of directors meeting of the National Youth Alliance. A new slate of officers was elected, new projects planned, the date and place of the War Trial set and a Seven Point Program adapted for the NYA. The meeting also heard from one of America's most respected patriots, Willis A. Carto.

NYA's first Chairman, Patrick Tifer, conducted the meeting and was later elected Executive Director. The new Chairman is Luke Herda, leader of the Servicemen's NYA and at present stationed at Fort Gordon, GA. The election of Herda as the new Chairman clearly sets the stage for youthful participation in directing the NYA and fulfills a promise made at the time of reorganization that the "voice of the members will be heard." Ken Hoop, a student at the University of Cincinnati, was elected National Vice Chairman. Peter Reynolds, Maryland Unit leader, was made National Secretary and Charles E. Baker, brilliant publisher of STATECRAFT, was elected as National Treasurer. Provisions were also made to add more young people to the board as the situation permits.

April 29th was set as the date for the NYA War Crimes Trial to be held in Washington DC. Also the list of indicted War Criminals was expanded to 14 as two new war profiteers were named. Arthur Burns, criminal head of the Federal Reserve System and William F. Buckley, loudmouth conservative oilman, were added. (Shortly after Buckley was named as a war criminal, the pro-Nixon Buckley organ NATIONAL REVIEW viciously attacked the NYA in a front page article.)

Numerous other projects were discussed with special attention being given to the current bussing situation. There was also a special request to the membership to cut out articles from their local newspapers and send it to the national office. This is so that your NYA leaders can be kept informed of local situations.

In order to keep pace with a changing political America the board adapted a new Seven-Point Program replacing an outdated Four-Point Program. NYA Unit leaders are asked to study closely this new program as this is the official position of your national office and a framework from which to conduct your local operations. Reprinted below is the new platform.

NYA STANDS FOR WHITE LIFE ---

- A. To defend white race & culture
- B. To mobilize against the needless slaughter of American youth in foreign wars
- C. To save American youth from the deadly peril of drugs
- D. To combat Leftist violence & black terror in America
- E. To create a healthy environment
- F. To end America's enslavement by International Bankers
- G. To mobilize American youth as a new political force

COLUMBUS, OHIO-- AUGUST 26TH. A highly successful organizational meeting was held by the NYA Franklin County Unit headed by John Gerhardt. The audience of mostly young people listened as Gerhardt and Patrick Tifer explained the need for the NYA in the State of Ohio and throughout the nation. Gerhardt promised that the Columbus NYA would follow up this meeting with an action program. True to his promise, Gerhardt launched a program of reaching young people by selling copies of STATECRAFT, NYA's hard-hitting newspaper, in and around the campus of Ohio State University.

Also plans were made in conjunction with the United Hard Hats of America to hold a public rally on the steps of the Ohio state capitol building. The purpose of the rally, set for October the 2nd, is to organize a peoples' protest against corruption in state government. Recently Ohio governor John Gilligan spent \$40,000 of state money to redecorate his private office while ordering public parks to be closed as an economy measure.

GERHARDT AND HOOP AT OHIO MEET

RALEIGH, N.C.--SEPT. 1ST. NYA members met in informal meetings with a purpose in mind of beginning a meaningful program for White Rights. Raleigh Chairman Bob Lowery and National Chairman Patrick Tifer spent the entire day confering with students, businessmen and local politicians. Lowery has had much experience with various rightist groups in North Carolina and is using this knowledge to forge a dynamic youth movement. While he was there, Mr. Tifer also voiced support for a White policeman who was fired from his job with the Wake Forest Police Dept. after black militants bombed his automobile earlier in the year. Police officials claimed the officer was "too controversial."

NEWS NOTES*****

As promised, the NYA held a second 'Smash Busing' rally in it's continuing effort to secure "Rights for Whites" throughout this land. The rally, held in Romulus, Michigan and attended by an enthusiastic crowd, called for an end to vicious liberal schemes that victimize White children and destroy White Life. A team of NYA speakers promised the audience that the National Youth Alliance would be in the forefront of efforts to halt Forced Busing..

The Somerset, NJ Unit (Box 338, Somerset NJ 08873) still has available a number of the humorous bumper strips that show a 'peace symbol' with the caption "Footprint of the American Chicken". They are 35¢ each and the money raised by the sale of these stickers is being used to buy copies of "Imperium". The books are then given free of charge to school libraries as a gift from the local NYA.

The phone number of the National Youth Alliance is area code 313--759-4770. It is recommended that you use this number for emergency situations.

The quality buttons, White Life T-shirts in all sizes and other NYA materials are available from Patrick Henry Sales, Box 563, Roseville, MICH 48066.

All members are asked to please fill out the enclosed activity report and return it in the envelope provided. This helps your national officers! THE GEORGE LINCOLN ROCKWELL PARTY

On March 30, 1971, a source advised that the American Nazi Party - World Union of Free Enterprise National Socialists (ANP-WUFENS) was organized by George Lincoln Rockwell at Arlington, Virginia, on February 26, 1956. It was based upon the concept of an international "National Socialist" movement, as espoused by the German Nazi Party, which was headed by Adolf Hitler. The ANP-WUFENS supports and follows the line of hatred against Negroes, Jews, and communists through speeches, published literature, demonstrations and publicity-seeking devices for the purpose of seeking a legitimate, dominant, political party within the United States and in foreign countries.

"The Richmond News Leader" issue dated April 4, 1963, published daily at Richmond, Virginia, stated that this organization was chartered in the State of Virginia as The George Lincoln Rockwell Party and that the Virginia Assembly prohibits the use of "Nazi" or "National Socialism" in a Virginia-chartered organization. As of January 1, 1967, the official name of this organization was changed to National Socialist White People's Party, according to Commander Rockwell.

BLACK PANTHER PARTY
also known as
BLACK PANTHER PARTY FOR SELF DEFENSE

The Black Panther Party (BPP) was organized in December, 1966, at Oakland, California, by Huey P. Newton and Bobby George Seale with the publicly stated purpose of organizing black people to take control of the life, politics, and destiny of the black community. The current principal officers are Huey P. Newton, Supreme Commander; Bobby G. Seale, Chairman; and David Hilliard, Chief of Staff. The Party publishes a newspaper called "The Black Panther" which has openly advocated the use of guns and guerrilla tactics in a revolutionary program to end oppression of the black people. Residents of the black community have been urged to arm themselves against police who are referred to as "pigs."

In the April 25, 1970, edition of the paper, an article advocated the taking up of arms against the Government, killing officials, "thereby passing revolutionary judgment against the number one enemy of all mankind, the racist U. S. Government."

David Hilliard, quoted in "The New York Times" edition of September 13, 1969, stated, "We advocate the very direct overthrow of the Government by way of force and violence."

BPP National Headquarters is located at 1046 Peralta Street, Oakland, California. Branches of the BPP and groups known as National Committees to Combat Fascism under the direction of the BPP have been established at various locations throughout the country.

NATIONAL STATES RIGHTS PARTY (NSRP)

On November 26, 1957, a source advised that the United White Party (UWP) was organized at a convention held in Knoxville, Tennessee, on November 10, 1957. An article in the November 26, 1957, issue of the "Greenville Piedmont," a newspaper of Greenville, South Carolina, reported "the recent formation of a new political party, to be known as the United White Party." According to the article, the party was formed at a recently held meeting in Knoxville, Tennessee, at which many klansmen were represented. The UWP was reported as being opposed to all "race mixing organizations and individuals."

The July, 1958, issue of "The Thunderbolt," self-described as the "official Racial Nationalist Organ of the National States Rights Party" (NSRP), reported that rank-and-file "States Righters" had merged with the UWP under "the banner of the National States Rights Party," with national offices at Post Office Box 261, Jeffersonville, Indiana.

In November, 1958, a source advised that the NSRP is composed of past members of Klan-type organizations and notorious anti-Semites.

NATIONAL KNIGHTS OF THE KU KLUX KLAN, INC.
(NKKKK)

A source advised that on May 22, 1960, the National Grand Council of the Knights of the Ku Klux Klan met at Atlanta, Georgia, to discuss consolidation of the Klan's unity of effort and activities to establish a National Fund, and a National Secretary, and to design a new flag. The meeting was attended by representatives of the Federation of Ku Klux Klan, Alabama; Association of Arkansas Klans, Arkansas; Florida Knights of the Ku Klux Klan, Florida; Southern Knights of the Ku Klux Klan, Florida; Association of Georgia Klans, Georgia; Knights of the Ku Klux Klan, North Carolina; Association of South Carolina Klans, South Carolina; Dixie Knights of the Ku Klux Klan, Tennessee; and Kyksos Klan, Texas.

This source advised that at a consolidation meeting at Atlanta, Georgia, September 2-5, 1960, at which the North Carolina and Texas Klans were not represented, it was resolved and passed that their name be changed to National Ku Klux Klan.

A second source advised in March, 1964, that several meetings of Klan groups were held during the period 1960 to 1963 in an effort to unite the Klan groups under a single leadership.

The organization was granted a charter in DeKalb County, Georgia, November 1, 1963, under the name National Knights of the Ku Klux Klan, Inc., as a "patriotic, secret, social, and benevolent order."

A third source advised in December, 1963, that the organization had issued a statement of its program which indicated the organization to be anti-Negro, anti-Jewish, anti-Catholic, and anti-foreign born.

A fourth source advised in July, 1968, that the organization has its headquarters in Tucker, Georgia, and the day-to-day operations are under the direction of James R. Venable, Imperial Wizard.

Tiny Handful Spreads Hate

BY KARL GROSSMAN

Twenty-five years after the biggest war the world has ever known—and the most horrible genocide ever conceived by man — Nazi activity has re-surfaced on Long Island.

It includes all the old devices—hate literature, swastika armbands, bravado, threats of terror.

It has a new tactic—a demand, supported by threats, that a Long Island library carry "pro-Aryan" books.

The Nazi activity is the work of a tiny handful. Police intelligence sources say the total number of "activists" is between 10 and 20, with perhaps 40 "interested followers."

Said an agent of one of the many law enforcement agencies which have been keeping tabs on the situation, "What's involved is a handful of Class A nuts."

BUT, NOTES Suffolk Dist. Atty. George J. Aspland, Nazis "have never been more than a handful—in the 1920s or 1930s—and they've always been nuts."

Their specialty, he says, is the few terrorizing the many—if they're not firmly stopped.

Stresses Professor Louis Coser, "a handful of men with the severe mental disorders that characterize Nazis can have a disproportionate influence on events if they're not handled promptly."

Virulent hate literature—calling for the creation by violence of a "master race"—has been dumped on the Island in recent months.

The Nazis talk of a "coming struggle for Long Island," between howls about "commie Kikes" and "Savage Blacks."

They also are working through a purported students' group to try to inflame race conflict at local colleges.

THE STAGING OF EVENTS has also begun. A contingent in Nazi uniform recently conducted a "memorial service" at Pinelawn National Cemetery.

It placed a swastika-wreath and a skull and crossbones on the grave of a "slain racial comrade"—a World War II German POW buried at Pinelawn.

Street rallies are threatened.

The groups involved are:

- The newly-formed Nassau-Suffolk division of the National Renaissance Party, an outfit run out of a basement in Yorkville.

- The National Socialist White People's Party, the new name for the Virginia-based American Nazi Party led by George Lincoln Rockwell until he was shot by one of his stormtroopers.

- And, the purported students' group, the National Youth Alliance, whose key leaders are Nazis, according to the Anti-Defamation League (ADL) of B'nai B'rith.

CONSIDERED AMONG the "followers" are members of the Minutemen, a para-military group regarded as defunct on the Island since massive police action in 1967.

Extensive weaponry—including mortars and bombs—was seized in the Minutemen raids.

Law enforcement sources who worked the case said most of the 15 Minutemen on the Island were Nazi.

In addition, the Nazis have a loose association—for literature distribution so far—with several Long Island motorcycle gangs.

Typical of the literature is the "Long Island Racial Nationalist," put out by the Nassau-Suffolk chapter of the National Renaissance Party.

"Upon the liberation of white North America by the National Renaissance Party," the newsletter announced, "our first task will be to round up all those who have committed acts of treason against the American nation, such as Communism or Zionism, and those who have committed crimes against the white race such as spreading anti-white propaganda or encouraging race mixing."

"AFTER A FAIR TRIAL by an impartial judge and jury," it went on, "those found guilty will be summarily executed. A number of people, in particular Jews, have questioned the morality and justice of this procedure, hence we have decided to offer these Zionists and Red

Jews who do not wish to face an impartial Aryan Court of Law an alternative."

The newsletter then pictures a boat with the caption: Our super-luxurious liners will take traitors on a one way trip to nowhere. The real difference of our steamers is their removable plugs. Sponsored by the Jewish Deportation Lines."

After a note that blacks are "250,000 years behind the white man on the scale of evolution," there is a plug for the organization's "program" which includes:

- Restricting American citizenship to mentally and genetically sound members of the Caucasian race.
- Legislation to prohibit intermarriage.
- One white empire stretching from the Arctic Ocean to the Gulf of Mexico.
- A "bonus" of \$1,000 to be paid for every healthy white child produced in the United States.

THE CHAPTER'S MAILING address is a Bay Shore Post Office box.

Law enforcement sources advised The press that the Renter of the box is a Jean Charlebois of Bay Shore. The sources said Charlebois has been in several altercations in New York City involving the National Renaissance Party. He most recently was arrested Jan. 16, 1971, in Manhattan, they said, and charged with assault and possession of dangerous weapons after he allegedly attacked a New York policeman.

He is listed in National Renaissance Party literature as a "private" in its "Security Echelon" (Blackshirt) division.

Charlebois was unavailable for comment.

HOWEVER, THE PRESS did locate Raymond Dowd of Lake Ronkonkoma who described himself as "political coordinator" of the group.

Dowd, however, referred all questions to the national "fuhrer" of the party, James Madole.

Madole, interviewed at length from his Yorkville headquarters, said he viewed Long Island "with the unemployment you're having out there, with the returning Vietnam war veterans, all the problems with the niggers as particularly lucrative."

But, he said, "I'm very busy right now working New Jersey. The riots in Jersey have made it very promising for us, too."

He refused to discuss numbers. He claimed, however, that the Nassau-Suffolk chapter distributed 30,000 "pieces of literature" on Long Island in recent months.

These are samples of materials American Nazis are distributing on Long Island.

Madole, according to the Anti-Defamation League, has been arrested and convicted on weapons charges stemming from Nazi activities in New York City.

THE LIBRARY DISPUTE began when a delegation of Nazis barged into the Bay Shore-Brightwaters Public Library, strutted around the shelves inspecting the books and then announced it wanted some Nazi-oriented "pro-Aryan" books on the shelves.

The library people listened—and finally ordered two racist works, which are currently in the process of being reviewed.

Said a member of the library board, who asked to remain anonymous: "We feel a library should represent all points of view. Two of these books (from a list the

Nazis supplied) were ordered because we dealt with the Nazis as we'd deal with any group."

The trustee said a special reviewing procedure was set up for this case. A "totally impartial" member of the board has been assigned to read the works and report back to the other trustees at a meeting Wednesday, the trustee said.

"A final decision on whether to keep the books will be made then," said the trustee.

"We don't want to be accused of being prejudiced."

said the board member, who, incidentally, is Jewish, "We're trying to deal with the Nazis fairly."

MEANWHILE, the Nassau-Suffolk branch of the National Renaissance Party has published a letter from the library in its "Long Island Racial Nationalist" advising the party that the books have been ordered. It is hailed as a victory.

The books are "Lincoln's Negro Policy," a racist harangue, according to the Anti-Defamation League, and "Imperium," a white supremacist's view of world history.

THE NATIONAL YOUTH Alliance burst onto the Long Island scene last winter describing itself as a "law and order" organization geared to stamping out "anarchist groups" on college campuses.

Most of its organizers, it was said, were former Youth for Wallace campaign workers.

According to the Anti-Defamation League, however, key leaders of the group were members of the National Socialist White People's Party. And they and representatives of the neo-Nazi Liberty Lobby eventually took full control.

Since then:

- National Youth Alliance speakers screamed "There's a Jew behind every anti-American disturbance" during problems at St. John's University last fall.

- The group was suspected in connection with arson attacks against blacks at the State University at Stony Brook.

- A delegation of its Long Island chapter dramatically split, arguing, "we were subjected to racists and anti-Semites," and a Young Americans for Freedom leader said the group was run by "racists, Nazi and rejects from the Ku Klux Klan."

NATIONAL LEADERS of the National Youth Alliance couldn't be reached for comment. At the Ronkonkoma home of James Clifford, the group's former Long Island director, a man who identified himself as Clifford's father, said: "There were no Nazis in it. I'm not saying another thing."

At its height, the National Youth Alliance chapter on Long Island claimed to be getting members from all island colleges and at well-attended press conferences was talking about getting involved in local Republican primaries.

NATIONAL YOUTH ALLIANCE

The National Youth Alliance (NYA) is an organization originally formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election for the purpose of countering radical leftist and anarchist influences on the campuses of American colleges and universities. NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

On April 28, 1972, a confidential informant who has furnished reliable information in the past furnished a copy of the May, 1972 issue of "Attack!" (Number 11), a publication of the NYA, Washington, D.C. An article entitled "Revolutionary Notes" appearing in this publication on page six purports to provide instructions for the construction of a "Molotov Cocktail".

A reproduction of the "Revolutionary Notes" article appearing in the May, 1972 issue of "Attack!" is attached hereto.

REVOLUTIONARY NOTES ④

These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and material.

For the majority which Marxist activists presently enjoy in this area.

NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the construction or use of any of the devices, materials, or techniques described herein.

Molotov Cocktail

The Molotov cocktail can be one of the guerrilla's most important weapons. It is employed most often in an action situation involving opposing personnel or vehicles, although the basic device can be adapted for booby traps and certain sabotage projects.

The weapon, named after Old Bolshevik Vyacheslav M. Molotov (alias Skryabin) and widely used by communist guerrillas in Europe, consists simply of a glass container filled with a flammable liquid and equipped with some mechanism for igniting the liquid when the container is shattered against a target.

The flammable liquid is nearly always gasoline, although thickeners such as heavy motor oil or soap are often added to modify the burning characteristics of the gasoline.

Various ignition mechanisms may be used, allowing the guerrilla considerable freedom of choice in the preparation of his Molotov cocktails.

The Basic Device

The simplest possible ignition mechanism is a rag wick saturated with gasoline and stuffed into the open mouth of a gasoline-filled container. Immediately before hurling the container against a target, the guerrilla ignites the wick with a match. The wick will generally burn tenaciously enough so that there is little danger of its blowing out on the way to the target.

Molotov cocktails of this variety may be conveniently prepared for later use and stored, if a container with an easily removable gasoline-tight closure is used. One of the handiest containers, not only for this cocktail but also for others to be

described here, is a one-quart beer bottle of the rescalable variety, with a plastic-lined, aluminum screw cap.

A suitable wick, a couple of strike-anywhere matches, and a small piece of sandpaper (to provide a striking surface for a match) may be lightly taped to the neck of each bottle, so that one may store any number of complete, self-contained weapons, ready for immediate use. The guerrilla merely has to remove the cap, insert the wick, and light it with one of the matches provided.

Advantage of Standardization

Standardization of components and mass production offer the considerable advantage of increased reliability. For every bottle of suitable size and shape which has a proper cap and is satisfactorily frangible, a thousand can be found which either have less satisfactory closures or cannot be fully depended on to break when they strike their targets. Likewise, for every suitable piece of wick material there will be an abundance of less-suitable material available. Once a guerrilla group has settled on a particular construction for its Molotov cocktails and become familiar with their peculiarities, it will be advantageous to stick with fire bombs of identical structure and materials.

Disadvantages

Perhaps 90 per cent of the Molotov cocktails ever used have been of the type described above. Their great popularity is due to the ease with which they can be made.

Compared to other types, however, they do offer a couple of serious disadvantages. In the first place, they can be very

hazardous to an inexperienced user. If too much wick is sticking out of the bottle, or if a little gasoline from the saturated wick has dripped down the side of the bottle, the violent flare-up when the wick is ignited may cause the person holding the bottle to drop it — with possibly catastrophic consequences. A number of would-be fire-bombers have accidentally incinerated themselves in this way.

Another disadvantage is that the bomber becomes a highly visible target, especially at night, as soon as he lights his wick.

To eliminate these shortcomings, several types of wickless Molotov cocktails have been developed.

Acid-Chlorate Ignition

The wickless fire bombs described here require, in addition to suitable bottles with plastic-lined caps and gasoline or gasoline-plus-oil as a fuel, concentrated sulfuric acid, sugar, and sodium or potassium chlorate.

The bottles are filled between 1/4 and one-third full with concentrated sulfuric acid. A plastic funnel should be used and great care should be taken not to get any acid on the outside of the bottles. The remaining space in the bottles is then filled completely with fuel and the caps screwed on tightly. Note that the sulfuric acid must be concentrated; the dilute acid used in automobile batteries is not suitable.

Approximately equal volumes of chlorate and sugar are dissolved together in the minimum volume of boiling water (removed from the source of heat before the chlorate and sugar are added). Long strips of cotton cloth about an inch wide, which have previously been boiled for a minute in plain water and wrung out, are stirred into the hot, saturated solution until they have been thoroughly wetted by it. They are then hung up to dry.

When the strips have become approximately dry to the touch, but before they have become stiff, they may be taped to the bottles. Use two strips on each bottle, running them down the sides from the neck, crossing the bottom at right angles, and then back up to the neck on the opposite sides.

When the bottle is broken, allowing the concentrated sulfuric acid to contact the chlorate- and sugar-saturated strips, ignition takes place almost immediately.

Fuse Ignition

This variation requires, in addition to a bottle filled with fuel, only a length of black-powder-core fuse and a rectangular piece of sheet metal measuring about 4 inches by 1 inch. The fuse can be obtained in most rural hardware stores, and the sheet metal can be cut from a flattened fruit-juice can.

Make a 90-degree bend along the long axis of the sheet metal and securely tape an 8-inch length of fuse to the inside of the bend, with an inch of fuse protruding at one end. Then tape the metal to the bottle. Be sure the fuse is nowhere closer than 1/2 inch to the glass; otherwise, the heat from the burning fuse may crack or break the bottle prematurely. After the fuse is lit, it may be allowed to burn down behind the metal shield before the bottle is thrown. An 8-inch length of the most commonly available fuse has a burning time of about 25 seconds.

Mechanical Ignition

Finally, Molotov cocktails have been successfully ignited with a device consisting of matches fastened to the bottle neck and surrounded with a close-fitting sleeve having a striker surface inside. The sleeve is spring loaded and held in place by a cord passing around the bottom of the bottle. When the bottle is broken, the spring-loaded sleeve flies off, igniting the matches by friction as it does so. The matches in turn ignite the fuel.

SDS was founded during June, 1962, at Port Huron, Michigan, and in the 1960's functioned as the leading New Left campus-based student organization in the United States. From a stance of "participatory democracy", the SDS moved to a radical-revolutionary position. It maintained a national office at 1608 West Madison Street, Chicago, Illinois, until February, 1970. Internal factionalism during 1969 produced three main factions: Weatherman, Revolutionary Youth Movement (RYM), and Worker Student Alliance (WSA). The Weatherman and RYM no longer consider themselves associated with the SDS. The WSA faction continues to use the name SDS.

NATIONAL YOUTH ALLIANCE

The National Youth Alliance (NYA) is an organization formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election for the purpose of countering radical leftist and anarchist influences on the campuses of American colleges and universities. NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

On May 30, 1972, a confidential informant who has furnished reliable information in the past provided a copy of the June, 1972 (Number 12), issue of "Attack!", the tabloid newspaper published by NYA. Among the items of interest appearing in this publication are the following:

It was announced that discussions held April 29 and 30 (1972) at Toronto (Canada) between William Pierce of the NYA and

had led to an agreement whereby Western Guard activism will be reported in "Attack!" and distribution of "Attack!" will be made in Canada by Western Guard members and supporters. It was stated "That the two organizations would continue their parallel programs as presently established, NYA in the United States and the Western Guard in Canada, but that, to the greatest extent feasible, consultation and collaboration on all action projects and propaganda would take place, with the particular aim of exploiting certain complementary aspects in the resources of the two groups". It was stated that ideologically the Western Guard program closely matched that of NYA.

A news item on Page 5 of the June, 1972, issue of "Attack!" noted that "An NYA delegation will attend the

The June, 1972, issue of "Attack!" contains the seventh in a series of articles entitled "Revolutionary Notes", on Page 6. This article discusses firearms which would be most effective for use in urban guerrilla warfare. The article also contains a note with a suggestion from a reader regarding the construction of a "Molotov cocktail".

A reproduction of the "Attack!" article, "Revolutionary Notes", is attached hereto.

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

REVOLUTIONARY NOTES 7

These Notes are intended solely to arm the patriot with detailed information on urban guerrilla warfare technique and materiel, thus overcoming the monopoly which Marxist activists presently enjoy in this area.

NYA assumes no responsibility for medical or legal difficulties which may ensue for the individual who engages in the construction or use of any of the devices, materials, or techniques described herein.

Firearms

Previous Notes dealing with explosive and incendiary devices have emphasized improvisation. A few years hence it may be important for the urban guerrilla to be able to improvise his firearms also, but in the immediate future he almost certainly will have a ready supply of commercially manufactured firearms.

His principal need at this time, then, is to be able to evaluate the various types of available firearms and ammunition in terms of the tasks he will call upon them to perform and the conditions under which he must expect to use them.

In this and successive Notes we will briefly consider the following firearms tasks or functions: street fighting, sniping and terrorism, assassination.

Street Fighting

Here the guerrilla comes closest to being engaged in conventional military action, and the weapons he will find most suitable will be similar to those used by conventional military forces.

Rifles and Carbines

The most basic such weapon is a rifle of military caliber. There is such a wide range of possibilities in making a choice here that it is difficult to do more than offer a few general suggestions and guidelines:

Availability of ammunition should be a primary consideration. Rifles handling a universally available cartridge, such as the .30-06, are greatly preferable to those requiring, say, 6.5 mm Jap or 7.65 mm

Argentine Mauser cartridges. Particularly to be guarded against is the temptation to choose one of the super-power cartridges, such as the .358 or .375 magnum. The ballistics may be impressive, but any advantage will be far outweighed by the virtual impossibility of finding the right ammunition under combat conditions.

The advantage of being able to scavenge ammunition from government forces is

30-06 Carbine

substantial. The .30-06 is widely used by National Guard and other military units in the U.S., who are still equipped to a large extent with the M1 Garand. As the changeover to other military calibers progresses, however, the guerrilla should keep an eye on the situation. Within a few years the caliber .223 M16 may be in more common use than the Garand by police and National Guard units. One other military rifle commonly encountered is the caliber .308 (7.62 mm NATO) M14.

Urban firefights nearly always involve ranges less than 200 yards and usually less than 100 yards. Thus, except for sniping, a flat trajectory and long-range killing ability are not critical requirements for a guerrilla weapon.

Because guerrilla units will usually be outnumbered by their government opponents, firepower — the rate at which aimed fire can be delivered — is particularly important. Thus, a semiautomatic weapon is preferable to a bolt-, lever-, or pump-action rifle. For the same reason, a weapon with a detachable box magazine which can be rapidly replaced with a fully loaded spare offers an advantage.

Both the above considerations suggest the suitability of the caliber .30 M1 and M2 carbines. They have ballistic characteristics substantially less impressive than a .30-06 rifle, but still quite

adequate for most urban use. Furthermore, the convenience and maneuverability of these carbines, together with their very high firepower capabilities,

Autoloading, combat shotgun

recommend them strongly. Caliber .30 U.S. carbine ammunition is still widely available.

Any guerrilla unit will be well advised to keep the number of different kinds of rifles on which it is dependent to a minimum. This is particularly important from the standpoint of commonality of ammunition, but it is also advantageous for a guerrilla to be completely familiar with the characteristics of the rifle he is using. He can only do this if he can count on always having access to the same type of rifle.

Shotguns

In many cases the urban guerrilla will find the shotgun a satisfactory substitute for a rifle. Shotguns are more widely available in stores, homes, and police armories than any other kind of firearm. With buckshot or rifled-slug loads they have adequate kill-capability at most urban firefight ranges.

One feature of the autoloading shotgun that is often overlooked is its enormous firepower capability. Typically, five shots can be gotten off in less than three seconds. If No. 4 buckshot loads are used, that means a hail of 135 caliber .25 pellets in those three seconds, lethal out to 50 yards. That is a performance superior to any submachine gun made. With a shortened stock and a barrel cut down to 18 inches, an

autoloading shotgun can be just about as portable as a submachine gun and is generally to be preferred as a guerrilla weapon.

A few rules for guerrilla shotgunners are:

- 1. Don't choose a weapon of other than 12 gauge bore.
- 2. Don't use cartridges loaded with smaller pellets than No. 1 buckshot.
- 3. Always have a few rifled slugs handy, for use against vehicles and barricades.

Sidearms

Similar considerations to those for rifles apply to sidearms. If a revolver is chosen, it should be chambered for caliber .38 special (or .357 magnum, which will also accept the shorter .38 special cartridge). Avoid oddities, such as the .44 magnum.

.38 Special

If an autoloading pistol is preferred, stick to one using either .45 ACP or 9 mm parabellum cartridges — unless concealability is important. Probably the best military sidearms available are Walther's 9 mm P-38 and Smith & Wesson's 9 mm Model 39, both of which have the very valuable double action feature.

Model 39, 9 mm

More on Molotov Cocktails

A reader has brought to our attention a modification of the basic Molotov cocktail described in the last ATTACK!

Instead of a wick being stuffed into the open mouth of a gasoline-filled bottle, wick material is wired to the neck of a sealed bottle. The guerrilla carries a separate squeeze-can of lighter

fluid. When he is ready to throw the Molotov cocktail, he squirts lighter fluid onto the wick and ignites it with a match.

This method is both quicker and safer than the one we gave our reader chains.

In the next issue: Sniping and terrorism.

WHAT THE NATIONAL YOUTH DESIRE:

We want to achieve an organic society which will not only protect and perpetuate the great, traditional values of Western civilization but will purify the Western world of the degeneracy of communism and liberalism.

We want to secure for our people control over our own destiny by eliminating from the nerve centers of our society every anti-American and anti-Western influence.

We want to safeguard our racial identity by putting an end to the present insanity of enforced racial integration, which is threatening all involved with social chaos, cultural dissolution, and racial death.

We want to foster among our people, through the recapture of our information media and our educational system, a new spiritual outlook: the outlook of free men living and working in harmony with Nature.

We want to make possible for our people a new way of life, a meaningful and satisfying way of life as opposed to the present rat race in which every man and every woman exist simply as exploitable economic units.

We want our country, one day, to have a sane policy toward the other nations of the world, in place of the self-destructive idiocy which presently passes for American foreign policy. We need a policy based on a recognition that our interests are bound up with those of the other peoples sharing our common racial-cultural heritage, whether in Canada, Europe, southern Africa, Australia, or elsewhere, and that other races must develop in accord with their own, distinct racial-cultural imperatives — without help or hindrance from us except where such development poses a distinct threat to our own security.

APPEAL

CALLING THE YOUTH OF THE WORLD!

The intolerant, militant Marxism-Leninism has been lining up for its big rush for Western Europe. This aggression against the freedom of the peoples and thereby against the freedom of the individual in the west of this continent is based upon a simple principle: Subversion from inside! In Western European countries Lenin's bourgeois "useful idiots" are - not infrequently under the mask of social liberalism - marching at the head of this intellectual and political self-destruction. It is time, therefore, for all young patriots of the European countries to move closer. The forces of destruction and imperialism have to find us, the national youth of Europe, united and strong in the uniform counter-attack. MUT - the national European magazine - therefore approaches all national activists of Western Europe for the turn of the year: Let the "1st National European Youth Congress" finally come true, create finally in common the "Intereuropean National Union".

MUT appeals to all national groups and all journalists at home and abroad: Do assist in spreading this call for the "1st National European Youth Congress", do support the intention of the youth German national activists to materialize this congress of delegations of all Western European young nationalists in 1972! This great and difficult plan can only be successful if everyone who reads these lines will carry the appeal for the "1st

National European Youth Congress" beyond countries and borders. MUT especially calls upon the English, French and Italian activists for energetic preparations.

MUT suggests the following topics for the congress:

- Exchange of experience and prospects for a joint political combat against Marxism/communism and against any kind of imperialism.
- Possibilities of a permanent co-ordinated national youth exchange programme.
- Establishment of an active "Intereuropean National Union of the Youth".

Journalists and national activists! Carry this appeal from country to country! Do make suggestions, become active in this matter yourselves, let us all in common materialize the "1st National European Youth Congress". MUT has taken the initiative, but we have now to act all together.

Fight against communism. Fight against imperialism. Fight against political and economical exploitation of our peoples. For freedom and unity, national solidarity, now!

Magazine MUT

In the December 1971 issue of the German Rightist publication "MUT" ("COURAGE") there appeared an APPEAL to all anti-Bolshevik Youth of the West. An English translation appears above. Since its appearance, this Appeal has been translated into Spanish, into Italian, into English, and into French. It has appeared in CEDADE (Barcelona), NATION EUROPA (Germany), CONSTITUENTE GIOVENTU EUROPA (Italy) and other intensely nationalistic publications. Groups which have promised representation at the Youth Congress include the NPD and "Widerstandskämpfer" of Germany, the MSI of Italy, the Falange of Spain, the "Ordre Nouveau" of France, the Wallon and Flemish youth organizations, to mention a few. It is expected that english-speaking comrades will also attend. Among the American youth organizations which will send delegates is the NATIONAL YOUTH ALLIANCE of Washington, D.C. The Congress will be held during the first week of September, in Munich, Germany. We will send you further information on request. Contributions are welcome to help cover printing & mailing costs!

WHAT YOU CAN DO TO HELP MAKE THE CONGRESS A SUCCESS:

- If you are planning to go to Europe (and particularly the Olympic Games in Germany) this summer, schedule your trip for late August and early September. Contact us immediately.
- Distribute extra copies of this sheet to patriotic organizations which might be interested in having representation at the Congress.
- Get this Appeal, including our address, reprinted in publications sympathetic to an inter-european Renaissance and spiritual revival.

NATIONAL YOUTH ALLIANCE

The National Youth Alliance (NYA) is an organization originally formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election for the purpose of countering radical leftist and anarchist influences on the campuses of American colleges and universities. NYA currently is controlled by individuals who militantly promote white racialism and anti-Zionism and who suggest violent revolution ultimately as the means for implementing their racial and political ideas in America.

AMERICAN MOBILIZERS

For A New America

★ Box 1084 ★ Mount Vernon, N.Y. ★ 10551 ★

Dear Patriot:

Inclosed is the latest issue of THE NEW AMERICAN, which we are certain you will find interesting and informative. In our very first issue, we pledged that THE NEW AMERICAN would continue to improve and expand. As you will see with this issue of THE NEW AMERICAN, we have kept our promise to you. And we will continue to carry on the task we have set for ourselves, because we are confident that THE NEW AMERICAN is being well received by all those that wish to see our work for a better America succeed.

We have received letters from all over America--and abroad, too--telling us that we must continue to bring the truth to the people, even if it is a mighty task. Our answer to these good Patriots can only be: we will continue our efforts--come what may--to bring about an awakening of our People. We will continue the struggle for a new America, no matter how difficult the path, or how dangerous.

As you will see in this issue of THE NEW AMERICAN, our struggle for a new America is not confined to the ~~relatively~~ safe realm of publishing. The American Mobilizers is primarily devoted to ACTION--public activity that is designed to recruit new people and bring attention to the positions we advocate. We believe that only through action can any genuine change for the better come about in America. And you can help bring about that change!

We have done, we feel, an adequate job in the recent past bringing you THE NEW AMERICAN, and simultaneously carrying out demonstrations and recruiting. BUT WE FEEL THAT "ADEQUATE" IS NOT ENOUGH!!! We MUST be able to expand our public activities. And it is YOU, American Patriot, that can help us make our task successful.

We must have the funds to pay for our rising printing and postage costs. We must be able to distribute literature to be able to recruit, and this costs considerable sums. We must be able to hire meeting halls to invite supporters and potential supporters to hear what we feel must be done to make a New America a reality. We must be able to have funds available to organize demonstrations and pay legal fees. In short, we must have your help to expand our operations!

There are many ways you can help. Fill out the inclosed Application for Membership and regularly contribute. Subscribe and purchase gift subscriptions for your friends. Purchase and distribute literature and/or extra copies of THE NEW AMERICAN. Donate time to help in public activities. Or even an anonymous contribution will be gratefully accepted and turned into "ammunition" in the battle. Whatever it is you feel you can do, PLEASE, do it now!

WALLACE SHOT!

**BULLETS AIMED
AT WHITE AMERICA!**

Laurel, Md. May 15 --- ALABAMA GOVERNOR GEORGE C. WALLACE, WAS SHOT TODAY WHILE CAMPAIGNING FOR THE DEMOCRATIC PRESIDENTIAL PRIMARIES. THE ASSAULT WAS SUBDUED IMMEDIATELY AFTER FIRING THE SHOTS WHICH NEARLY KILLED WALLACE.

"FREEDOM OF EXPRESSION"...

...AND A RESULT

GOVERNOR GEORGE WALLACE lies on ground moments after being shot by Arthur Bremer. Leftist demonstrators in Michigan (above) say "Stop Wallace". As you can see, the enemies of White America will stop at nothing to destroy the fledgling White revolution.

Who was responsible for the shooting? Is there a conspiracy afoot? Why was Wallace attacked? These are questions millions of Americans are asking.

DEAFENING SILENCE

It is not too early to say that there will be a deafening silence about the circumstances in the assassination attempt. Within 24 hours, the mass media had already begun the usual "lone-wolf" and "nut" propaganda.

Arthur Bremer would seem to be a "nut" from the reports. But one must consider that even a "nut" has to have some motivation to commit or attempt political murder. What was Bremer's motivation if any?

JANITOR'S HELPER

Bremer is said to have been last employed as a janitor's helper, yet he had, evidently, enough funds to buy a car, pistol and ammunition to the tune of \$1000, while maintaining his \$135 a month apartment in Milwaukee. He had funds to follow the Wallace campaign through several states and to make a mysterious trip to New York, staying at the plush Waldorf for several days. Did the money come from the piggybank of a janitor's helper? Or did it have some other source? What source?

POISON

Who was responsible? Without a trial--Bremer was seen and photographed committing the shooting---we can safely

say that Arthur Bremer is the man who pulled the trigger, almost snuffing out the life of George Wallace. But where else can the responsibility be placed but squarely upon the shoulders of the enemies of a new America?

Bremer wielded the gun, but mass media distorters loaded and aimed the gun! A "sick mind" committed the crime, but hate-White poison is available in any dosage from Radio TV and the press, inspiring sick minds to sick deeds.

TOOLS

The story is the same in every assassination of Patriotic Americans. Sen. Huey P. Long of Louisiana, Sen. Bilbo of Mississippi, Cmdr. George Lincoln Rockwell, in each murder, a "loner", a "loser" or a "nut" have been the tools of America's enemies. Does the tool matter, so long as the job gets done? Apparently not.

COMMUNIST PARTY

Is there a conspiracy? It should not be difficult to understand that there are those that do not wish to see the "natives" become too restless. Among the peoples' enemies, the Communist Party has begun through its youth organization "Young Workers Liberation League" a campaign to "educate" Americans of the danger of Wallacism. As a part of their "educational tools", violence has been a standard method of "teaching" reluctant pupils. It is an accepted way of dealing with all that oppose them, and the Wallace move-

What Has Happened to America?

by John H. McDuff

It is now 1984 and we are living in a Police State. No, this is not the opening line of a science fiction novel; it is true, and it is happening now.

My suspicions were first aroused about a year ago when a few friends gave me information on the CFR--the international Jewish conspiracy to rule the world. (CFR--Council on Foreign Relations, Ed.) Members of this group--some of them world leaders, and other lesser known but no less powerful--have, it is said, gained control of key positions in all government on earth including our own.

They run all major political parties. They control Capitalism and Communism alike. They manipulate world currencies at will, stop and start wars as it suits their purpose, and effectively

hide their actions under a cloak of secrecy by controlling all channels of news and information. Thus, the same hand that censors Pravda censors your local newspaper.

GLOBAL CHESSBOARD

The goal of these men is limitless power over

JANE FONDA
Heroine, or just a Hooker?

RACE AND WALLACE

Why was Wallace attacked? In the above it is plain to see that anyone representing the White people, organizing for political action, and in general asking questions long unanswered, poses a threat to (1) the Establishment (2) powerful minorities and (3) brainwashed anti-Whites.

Wallace is a representative; a symbol. He stands for many things to many people. Whatever else, however, the vast majority of Wallace supporters are motivated by RACE. The denials may issue forth from top to bottom in the Wallace movement, but RACE remains the fact that unites the Wallacites. And this is the very thing that is not supposed--ever--to be a fundamental of any mass organization in politics.

FAR WORSE TO COME

To our enemies, Wallace is White America. When those bullets were pumped into the body of George Wallace, they were aimed at the heart of White America.

George Wallace did not die. He will go on to act out his part in the great struggle that will become ever more violent and dangerous.

you and me--world wide domination of an elite few over the lives and destinies of men and nations which are, to them, no more than pawns on a global chessboard. We are the worker-ants who must build the "Utopia" over which this elite will rule.

FANTASY?

If all this sounds like fantasy or the ravings of a paranoid, ask yourself a few questions. When Nixon took his disgraceful hat-in-hand journey to Peking, did you or anyone you know write a letter criticizing the trip? If so, was the letter printed, and in its entirety? In Boston, all I saw were articles and features praising the trip. Although I and other Patriots wrote such letters, we did not see one of them appear in print.

Do you wonder why Angela Davis is free on bail? Why the death penalty was abolished in California? Why the government is devising new schemes daily to increase their cradle-to-grave control over your children? Why bums are publicized into heroes? Why does the media praise the degenerate cavorings of Jane Fonda and the Black Panthers? Why is Nixon quoting Mao? What has happened to America?

Bremer

pistol

But if Wallace would have become one more victim of the hate-White poisoners, are they so naive to believe it would have destroyed the Will-to-Power in America? It will take more than mere bullets to stop that which "stands behind him". Yes, that which is coming is far, far worse than George Wallace, IF you are an enemy of a healthy, White America.

WORK Works!

by Gerhard Lauck

"Welfare, 'pollution', 'Ivory tower thinking', 'snobbery', 'liberalism'... what do these things have in common? They all come from a misunderstanding, perversion or lack of WORK. The anti-pollution plans of liberals include closing down productive factories and putting the working man out of it, out of work. The impractical schemes and snobbery of the ivory tower thinkers comes from lack of it, of hard work and 'alienation' from manual, getting-your-hands-dirty work. Liberalism is anti-work and does not work. Liberals whine about the sinister 'curse of labor', when instead young people should be taught that work gives dignity. A person who works gives back to the country what he takes from it as a child and as an adult.

LABOR SERVICE

Why not have a compulsory youth labor service? Combine this with a conservation corps and the welfare set that says it "can't find a job" could be put to the test.... and simply denied welfare if it fails the test of willingness to work. (Welfare was originally set up for the working man who is sick, injured or old so that his family would not starve. It should protect and help the working and best part of the country, not feed and multiply lower parasites.) Instead of closing down factories to "stop pollution"--which eventually means "stop eating"--youth labor service could clean up the pollution which always exists in a modern industrialized country. Young people who have worked for, say, six months and developed a healthy work attitude will find it easier to avoid that "ivory tower" thinking should they later go to college. Nor would they be snobbish, for work is the opposite of liberalism, almost by definition! After the compulsory youth labor service, they would be young adults instead of old, overgrown little children.

WALLACE IS A WARNING

From the Jewish Press, Friday April 14, 1972, (Pg. 39) Nehemya Mayor says "Wallace is a danger to America and Wallace represents all that is fearful and frightening. He represents the thinking of the American mass man... If he is simplistic they voted for him because they are too. If he is base and selfish they approve because they are too. The American people...are first and foremost interested in themselves. Wallace is without virtue or morality and that is why they vote for him...They are voting for Wallace despite the fact that conditions are far from desperate. What will they do and whom will they support when a true crisis descends, as it surely will? George Rockwell in his ugliness, was correct and understood Western Man, far more profoundly than the intellectuals and pundits. Wallace...signals the coming storm and behind him stand far, far worse than he. Wallace is a warning."

First World Anti-Red Youth Meet

APPEAL To The Youth Of The West

The intolerant, militant Marxism-Leninism has been lining up for its big rush for Western Europe. This aggression against the freedom of the peoples and thereby against the freedom of the individual in the west of this continent is based upon a simple principle: Subversion from inside! In Western European countries Lenin's bourgeois "useful idiots" are - not infrequently under the mask of social liberalism - marching at the head of this intellectual and political self-destruction.

It is time, therefore, for all young patriots of the European countries to move closer. The forces of destruction and imperialism have to find us, the national youth of Europe, united and strong in the uniform counter-attack. NATION EUROPA therefore approaches all national activists of Western Europe: Let the "1st National European Youth Congress" finally come true, create finally in common the "Inter-European National Union".

NATION EUROPA appeals to all national groups and all journalists at home and abroad: Do assist in spreading this call for the "1st National European Youth Congress", do support the intention of the young German national activists to materialize this congress of delegations of all Western European young nationalists

In 1972! This great and difficult plan can only be successful if everyone who reads these lines will carry the appeal for the "1st National European Youth Congress" beyond countries and borders. NATION EUROPA especially calls upon the English, French, Italian and Spain activists for energetic preparations.

NATION EUROPA suggests the following topics for the congress:

- Exchange of experience and prospects for a joint political combat against Marxism/communism and against any kind of imperialism.
- Possibilities of a permanent co-ordinated national youth exchange programme.
- Establishment of an active "Inter-European National Union of the Youth".

Journalists and national activists! Carry this appeal from country to country! Do make suggestions, become active in this matter yourselves, let us all in common materialize the "1st National European Youth Congress".

Fight against communism. Fight against political and economical exploitation of our peoples. For freedom and unity, national solidarity, now!

NATION EUROPA

INTERNATIONAL SOLIDARITY!

MOBILIZERS TO HAVE DELEGATE AT MUNICH CONGRESS

The above APPEAL originally appeared in the German *Mut* (Courage) Magazine, in December 1971. Since its first publication, it has been reprinted in many other anti-Bolshevik journals throughout Europe.

Mut Magazine, in its January 1972 issue stated "The national Youth (of the West) must show, and will show, that it knows how to build bridges of Solidarity. And it will demonstrate that the new Nationalism---and it alone---can point out the way to a common Future." In answer to this call to the youth of the West---the entire West---we who are struggling for a New Social Order in America MUST do all within our power to make this Congress a success. Had this been done 35 years ago, how much death, destruction and hatred could have been avoided?

In response to this first step in reconciliation of a too-long divided family, Mr. Gerhard Lauck, of Lincoln, Nebraska will act as Official American Mobilizers Re-

presentative at the Munich Youth Congress.

Mr. Lauck was recently appointed Staff Correspondent to *The New American* for the Mid-west. His deep political insights will be a great asset in expressing the position of American Patriots to our European comrades. He has been given authority to develop channels of communication between the Mobilizers and other delegates to the Congress, and enter into agreements of mutual benefit to the American and European struggle for liberation.

Further information on the American Mobilizers delegation will be announced before the Congress, which will be held in Munich, Germany in September.

Gillespie to Munich for NYA

Wash. D.C., April 25---- The National Youth Alliance announced today that Mr. Bill Gillespie will be authorized representative of that organization at the European Youth Congress.

Mr. Gillespie was, until recently Manhattan Unit Leader of NYA. He was also publisher of the hard-hitting *NYA Newsletter*.

Bill is a new Contributor to *The New American*. In the next issue we will present an especially important article that will rattle some teeth!

Commies Blast Nation Europa in (RED STAR)

The central organ of the Soviet Union's Ministry of Defense, *The Red Star*, has smeared the Youth Congress in its issue of Feb. 12, 1972. *The Red Star* states that "Neo-Fascist groups and organizations intend to undertake provocations against the sportsmen of socialist lands at the Olympic Games in Munich. So the magazine *Mut* agitated, directed against the Olympic ideal of working together and of mutual understanding. In Coburg appeared the international radical right organizations' magazine *Nation Europa* which, in its January issue, called various shades of Neo-Fascists to its 'First National European Congress of Youth' in Munich at the time of the Olympics.

MOBILIZERS ON MAY DAY:

"HANG ANGELA!"

NEW YORK, May 1, 1972 --- American Mobilizers demonstrators presented the only organized opposition to the annual Communist Party treason rally on May Day. A special banner was prepared to express Mobilizers opposition to the "Free Angela" theme of the Red rally.

May Day has traditionally been a time for the Communist Party to fill Union Square in Manhattan with a wide variety of human trash. This year, however, the Reds found that there are still Americans willing to stand up for America.

EARLY END

The Communist rally, which featured General Secretary Gus Hall, was scheduled to go on until 7:00 P.M. Despite the fine weather, the Reds cut their meeting short after an hour and a half, lasting only to 5:30 P.M.

The Mobilizers arrived on the scene at 3:30 and continued until 6:45.

Angela Davis, Communist

RED BANNER

To attract maximum attention to the demonstration, a special banner in bright red was prepared demanding "Hang Angela". The banner annoyed the Reds so much that more attention was paid to the Mobilizers than to the Red speakers.

When Gus Hall stood up to speak, he was greeted with organized chanting of "Death to Traitors" and "Gas Gus". For the most part, Hall's speech was actually drowned out by the chants.

"STAMP OUT THE FACISTS"

After Hall was given a sound dose of sloganeering, Sam

Part of Mobilizers contingent poses for a group shot

Pevzner, of the Jewish Cultural Clubs stepped forward to try his luck. Sam, speaking a variety of "English" understandable fully to only residents of an East European Ghetto, told everyone assembled how the "Golden Age for world Jewry will come when America is Communist", and how the "Facists (here pointing to the Mobilizers) must be stamped out if Communism is to succeed".

JEWISH DEFENSE LEAGUE

Once again, our contingent of Patriots formed the only organized opposition to anti-American hate rallies. A few "Independents" walked in circles for a while, but packed up and left soon after the Mobilizers began demonstrating, because they "don't believe in hanging people without a fair trial". We wonder if these "conservatives" expect to get a "fair trial" from the Reds? The Communists can be accused of many things

Mobilizers with signs and American flags

Reds' May Day Rally Union Sq. Shadow of Past Glory A Bit Like Old Times

By RICHARD SCHWARTZ

May Day, the Communist holiday that once brought out huge crowds in Manhattan, brought about 1,200 people to Union Square yesterday and many of them appeared to be on the ripper side of 40.

The keynote speaker at the rally was Gus Hall, general secretary of the Communist party USA, who told of a recent visit to Hanoi and Halphong during which he claimed to have seen damage done by U.S. bombers. "This is the moment," Hall said, "to strike against Nixonomics... to free Angela Davis... to turn the 1972 election into a drive to end the war... and to elect Communist candidates for office."

While a large police detail stood warily looking on, two groups demonstrated against the rally. One group of about a dozen, including young men in uniform, called themselves "American Mobilizers." The other group of about 10 carried American flags and said they were private individuals opposed to communism.

"Gas Gus Hall," chanted the "Mobilizers," and "Hang Angela." Miss Davis, on trial in California for allegedly supplying guns for a fatal courthouse shootout, is an avowed Communist.

"We Stand Alone"

NEW YORK, April 22 ----- Once again American Mobilizers demonstrators stood alone in opposition to those that wish to destroy America.

MOBILIZERS BRAVE WEATHER

but never of fooling around when dealing with their enemies. Let's "do unto them as they would do unto us".

Incidentally, a handful of Jewish Defense League hooligans were lurking around at the rally, but did not seem at all interested in "doing their thing" against the Reds. Instead, they were far more interested in snooping around a genuine anti-communist demonstration, and even had the nerve to attempt to obtain information about the Mobilizers participants. Perhaps they did not want to disturb their brethren celebrating May Day.

In the park where debaters and orators solve the world's problems among themselves daily, there was the unfamiliar blare of a speaker's voice over a public address system.

It was May Day in Union Square.

Gus Hall, general secretary of the U. S. Communist Party, was calling the bombing in Vietnam an "escalation of barbarism" which proves "imperialism is on the ropes."

Plainclothes policemen surrounded the podium in the parking area on the north side of the park. Across the street, two groups of less than a dozen persons each carried flags and picket signs.

The signs included "Abolish Red Parasites," "Hang Angela" and "Death for Red Swine." Several of the pickets heckled speakers.

The Mobilizers planned to counter-demonstrate at the massive "Stop the War" Red rally in Manhattan on the 22nd of April. Arrangements were made with the police, but at the last minute the demonstration site was changed to an area three blocks north of the Reds.

After marching through the astonished Reds, the Mobilizers assembled at the designated site, and continued to march and chant for several hours in spite of the unusually foul weather.

As has been the case in recent times, Mobilizers demonstrators represented the only organized activity against treason!

Roosevelt Hosts Reds

New York, March 10 --- New York's swank mid-town Hotel Roosevelt this year hosted the annual Daily World Banquet, while a group of American Mobilizers demonstrated outside.

The Mobilizers contacted other "right-wingers" to join in the demonstration, but to no avail. Perhaps the so-called "right" has been too busy preaching "unity" to have time to practice it.

KISSINGER GRABS FOR AMERICA
Nixon looks the other way

Moscow, 27 May -- His Majesty's Allness, Henry Kissinger celebrated his 49th birthday today in the Kremlin.

Upon returning to his quarters, he was surprised to find a huge birthday cake prepared by the Soviet leaders.

Nixon (U. S. President) sadly remarked that he, too was planning a surprise party for Kissinger, but "now the surprise has been spoiled"

The New American wishes the Emperor all the worst.

Gus Hall, Gen. Sec. of the Communist Party made several reports to top supporters and activists, informing the assembled Reds that "big things will be forthcoming in the Communist struggle." He intimated that even "government agencies can be helpful!"

Meanwhile, outside the Mobilizers were carrying on a lively demonstration, with chants of "Communism is Treason" and "Roosevelt Loves Reds."

George Adam Link, Mobilizers General Organizer was interviewed by Network local stations, the Daily News and also NY local TV. A report appeared on NBC-TV, but was presented without mention of the Communist Party banquet in the Hotel Roosevelt.

What Has Happened? (Continued from Pg. 2)

FRUSTRATION

The answer is simple! We have been taken over! Our sacred freedoms no longer exist. This take-over has been slow and gradual, but it is now nearly complete. A few small groups still dare to publish the truth, but their circulation is small, and their resources smaller still. The power group in control tolerates this activity for the time being, because they recognize it as a good safety valve for Patriotic frustration, and feel that we do not pose a real threat to them.

SILENCED

When their position is secure enough, they will move against even this small vestige of resistance with devastating force. Even now we can recall the voices of truth which have been silenced--some slain directly.

CHDR. LINCOLN ROCKWELL, USN
Hero or heel?

some the victims of dubious suicides, some unfairly imprisoned, and still more forced to live their lives as victims of slander and disgrace: James V. Forrestal, Admiral Husband E. Kimmel, Robert E. DePugh, General Douglas MacArthur, Commander George Lincoln Rockwell, Francis Parker Yockey, Senator Joseph R. McCarthy, and many more.

SLEEPING GIANT

Our Roll of Honor is long, and it will become longer as the control becomes more total. Perhaps we have waited too long to awaken. Like a sleeping giant, we have allowed our castle to be stealthily robbed, and now we are slowly and drowsily coming to our senses only to discover we are bound hand and foot.

If control is not yet absolute, then perhaps there is still time, if we are willing to fight the enemy to the death with every ounce of our corporate strength.

If it is too late, as I fear it may be, then let it be recorded for generations yet unborn who may, with God's help, rekindle the Torch of Liberty now flickering out for us, that before we entered the abyss of a new Dark Age, a few of us dared to fight for America, for our Western Culture, and for the vanishing freedom of all mankind.

EDITORIAL

The Morning After...

...will be Wed., Nov. 8. Who will be "President"? We don't think it will make much difference. Humpty-Dem. or Dumpty-Rep., neither will do anything good for the White working people. In fact they will, as usual, bollix things up even worse.

What about Wallace? Well, we can ask that question, too. What about Wallace? The American Mobilizers will not support Wallace, nor will we oppose him, for a whole galaxy of reasons. But what if by some incredible quirk in the criminal System, he makes it? Answer: ever hear of A. Bremer? There are plenty of them being trained and/or encouraged by the enemies of America. The Communist Party (see page 1) and many others are determined to see that no man makes any changes in the political set-up in America. However, if he could survive the constant hail of bullets, would he survive the Congress, or it's behind-the-scenes wire-pullers? Doubtful, highly doubtful.

The answer is not in putting one man in office--even the Presidency--but in driving all the others out of office! Those that think that Wallace, or another Rockwell, or even a Hitler could change anything under the crooked system demonstrate a total lack of understanding of (1) the American System before it's perversion, and (2) the present political set-up and the "Family" running the show. But, the Wallace movement is an historic necessity, and in it's ranks at present are many that will one day be firm battlers in the struggle for a New Order. And because it (Wallacism) is opening in millions of minds new political possibilities, it can be very beneficial to those of us that know what is yet to come to America. So, Patriots, let's get ready for Nov. 8, because our work will continue regardless of the outcome of the previous night.

▼▼▼ Dogs vs. Fun City

LIVING IN "FUN CITY" IS NO FUN. And we agree that dog dirt on the streets doesn't help. But if this was all the people of New York had to worry about, there'd be no complaint

There is a great howl going up from the--mostly--liberals about dogs. Seems they've been getting their dainty feet soiled. Some have suggested owners cleaning up after the dogs. Why not bring back the individual street-cleaner, and employ some of those "hard-core un-employables" we've been hearing so much about?

The libs say "clean up or get rid of dogs". They say dog-owners will have to be happy with canaries. O.K.! Breed us some 99 lb canaries complete with fierce whistle and teeth! Then dogs won't be necessary to ward off Fun City's abundance of thugs. We wonder how the libs will like getting it on the head instead of the foot?

CHRISTIAN VANGUARD

In its March 1972 issue, Christian Vanguard published in its Editorial entitled "Straight Talk" the following: "Those left-leaning Arab 'commando' leaders who cry 'racism' in tune with the Jews should realize the following: (1) the majority of those non-Arabs supporting their cause are Christian caucasian (2) besides being in sympathy with the Arab cause they support the Arabs because they realize that the Jews occupy the U.S. and other non-Arab countries and because the Jews control the propaganda media the people are for the most part unaware of this condition (3) when the Arabs liberate the Middle East from Jewish control we expect their help in liberating OUR countries (4) that no movement can defeat World Jewry unless it itself is worldwide and operates in every country of the world." COMMON SENSE

After 26 years, it is sad to see that Common Sense is going out of business. In their last issue, 15 May, 1972, they announced that "The days of newspapers are just about over. The days of signing petitions, writing letters, lifting teacups at polite little meetings, and hoping against hope that "our" elected officials will get off the system's dirty payroll, are rapidly coming to a close. The days of "educating the people" are coming to an END and the days of naked fighting for SURVIVAL are BEGINNING!!!" Fare thee well, Common Sense and the memory of Conde Mc-Ginley. But, welcome to the dirty battle for the streets of America!

(continued on page 7)

WHAT Is "Donald P. Rosenberg"?

It seems that whenever a good thing is beginning to form--in this case the growing knowledge among the Wallace people as to the root causes of America's plight--certain types inevitably pop up to inject their strange ideas and interpretations into the hitherto healthy, if too trusting, fledgling movement.

Apparently, Don Rosenberg and his "National Traditional Caucus" is one such type. Rosenberg operates out of his home at 116 East 31 Street, New York, N.Y. 10016, Tel. (212) 685-4689. No attention would be necessary by Patriots of this attempt to further confuse and misguide our already confused youth, were it not for the fact that such meaningless pap as is being peddled by "NTC" is always held up in the public eye as "opposition" to the rot prevailing. America's enemies are simply wild about this kind of "opposition".

To go into extensive quotes of the crude stuff published by "NTC" would be

a waste of time. Suffice it to say that this is not the way to get the youth out of the clutches of Marxism-Alinism. (But this is not the aim of "NTC", is it?)

Private property, free enterprise, individual liberty, wine, women & song, they're all O.K., WITHIN REASON! But just try to sell "capitalism" to a worker being fleeced of his last earnings, while the capitalist evades taxes as a matter of course, and you'll see what productive Americans think of it! Please, don't try to sell the "Capitalism-the-good-guys" vs. "communism-the-bad-guys" bunk to people who know better. Sure, the Reds stink, (we fight them at close range, you know), but so does capitalism--it's responsible for financing Marxism and it's affiliates!

But really, we think Mr. Rosenberg knows all this. And, he knows too, the Question of Race. And, he knows the implications of the Racial Questions. Any fool can follow the truth to its logical conclusion, given the

DID HE GET HIS JOB THROUGH THE N.Y. TIMES?

Donald P. Rosenberg, Nat. Chairman, NTC

opportunity. But this is just the point, and why the many words saying nothing from "NTC" alias D.P. Rosenberg, and the real reason for his "blacklisting" many staunch, fighting Patriots in the N.Y. area including Lewis Darne and G.A. Link of the American Mobilizers. Evidently, the trend toward 100% enlightenment among the various Patriotic circles in the nation has thrown a real fright into certain people.

Friendly advice to the "confusers": don't inject yourselves into our struggle for National and Racial liberation! The tide of American Patriotism is forming into a mighty force, and like the tide of the sea, it will ruthlessly destroy all in its way. And of course, the first to be swept away in the raging torrent will be those that attempt to act as a barrier!

Go to Israel, Kahane Asks Jews

By JEAN CRAFTON

Rabbi Meir Kahane, outspoken leader in the Jewish Defense League, called yesterday for an exodus of American Jews to Israel.

"For the American Jew, just as for any other Jew, there is only one home...one permanent safeguard--the land of Israel," he said.

Born End of the Dream

"The American dream is coming to an end for the Jew," Kahane warned his audience of men, women, small children and youths.

He told them that the crises facing the American public in general "are making the ground fertile for Jew hatred."

The Jews will ultimately bear the brunt of America's failure in Vietnam, he contended.

That "humiliating defeat" he said, "is going to let loose a flood of devils in this country, a flood of hatred. Fifty thousand American boys died for nothing -- and I mean nothing. And someone is going to pay for it."

Remarking on the prominence of Jews in the antiwar movement, Kahane said, "We will yet pay for our Jerry Rubins and Abbie Hoffmans. Don't underestimate the patriotism of the American people. They'll see Rubin and they'll see the Jew."

He reminded the audience of Hitler's talk of a "stab in the back" after Germany's defeat in the first World War. "The myth of the stab in the back is with us again," he warned.

There are those who say that "America is not Germany," Kahane went on.

He reminded his listeners that the German Jew in 1920 lived well and much longer in Germany than we have lived in this country. "... Germany was a good country to the Jewish people."

When Germany started persecuting the Jews," he said, "she had undergone a humiliating defeat just as we have. Someone has to be the scapegoat. The most logical one is the Jew."

NY DAILY NEWS,
MONDAY, MAY 8, 1972

In the PATRIOT PRESS...

NATIONAL RENAISSANCE BULLETIN (Continued from Pg. 6)

It seems that the more acceptable the concept of National Socialism becomes to the American People, the more certain "advocates" deny that concept. In the Sept. issue which appeared in February, NRB said "We cannot eternally look to the past for our racial future. Those who endlessly parrot the words of Mein Kampf written in 1924, or the American Constitution written in 1788 are hopelessly chained to the dead past and cannot hope to create an Aryan Empire..." It is incredible that those who advocate abandoning the foundation-motivation of the entire American--AND Western--liberation movement would not look to possible flaws in TACTICS (the application of an Idea) before going off half-cocked changing and/or rejecting sound Principles. As we have said before, PRINCIPLES must never change, TACTICS must--according to necessity. For the Idea to succeed, it must simply demonstrate that it is in reality the only answer to AMERICA's problems.
BOX 10, NEW YORK, N.Y. 10024

Cont. from Pg. 2

America needs a system like this youth labor service economically and educationally. Most youths today, who are too busy working to make news as leftist rebels, are mature enough to welcome such a system as an opportunity to prove themselves and help the country at the same time. Besides, it would be great to see those who drag down the name of American youth, the leftists, sweat from hard work instead of just smelling as if they had put in a hard day and simply had not washed yet. (A working man likes soap!)

Angela Davis acquitted

NEW YORK, June 5 - "My acquittal was a great people's victory," Angela Davis told Henry Winston, national chairman of the Communist Party last night. Miss Davis talked to Winston by phone from San Jose where she had just come from "a most thrilling party" with the jurors who acquitted her.

She told Winston that she would definitely be at Madison Square Garden on June 29, changing it from "An Evening for Angela Davis" to "An Evening With Angela Davis."

"And I intend to bring other political prisoners and my lawyers and people who aided in the defense, as well," she added.

McGovern hails Angela acquittal

LOS ANGELES (UPI)—Sen. George S. McGovern told a crowd of cheering blacks at a rally in Watts Sunday that the acquittal of Angela Davis should be "cause for rejoicing."

McGovern, speaking two hours after a jury in San Jose cleared Miss Davis, was greeted by a crowd chanting: "Power of the people has freed Angela."

"This is a happy day which I can understand," he said. "This is another demonstration that we can be pleased about."

DAILY WCLD

Americans should take pen in hand and mark Sunday, June 4 1972 on their calendars. On that day Justice was flushed down the sewer of Establishment expediency. On that day Angela Davis was freed.

A juror said that when deliberations began, 9 people called for her acquittal, but 3 others wanted to review the evidence. The juror said "it was all very well organized. We went over the evidence, while the others played cards."

Yes, it was very well organized. From the day that Angela was brought to trial to her acquittal, the entire farce was "well organized".

Who benefits from the trial? None other than the Commun-

ists. The Angela Davis Show has done more to popularize communism than they could do on their own. She was depicted as a "woman in love", a "young idealist", a "freedom fighter" being "persecuted".

There is great joy in enemy circles, because Angela proved they could get away with any crime, and the System would not seriously prosecute them.

Do we say that Angela Davis is guilty as charged? Look at the record, and decide for yourself. Do we say that Angela Davis is guilty? YES!

She is guilty of conspiring to destroy America. It is the cunning nature of the Communist beast to commit any crime in the name of Peace and Freedom. Can there be any doubt that the followers of Communism—which uses violence as a tool—would not employ violence?

Do we say that Angela Davis would have been found guilty were it not for the System's secret aid? YES! It is democracy that has permitted advocates of perverted ideas such as Davis' and her ilk to flourish. It is democracy that has not protected America from its enemies.

Angela Davis is a COMMUNIST, but those allowing her release are CRIMINALS.

Underway." This headline was for a two-page article pertaining to urban guerrilla warfare techniques and was accompanied by diagrams and instructions on the building of homemade bombs. The article sets forth details of the capabilities of medium-sized bombs so that the "patriot" will have the same information already in the hands of "our leftist enemies."

Three additional pages of the "Fiery Cross" are devoted to an article captioned "Why Revolution?" This article points out that police and the Congress are no longer guardians or servants of the "System" and that it is no longer possible to work through the "System" by Constitutional methods. To correct the inequities, it is advocated that if blood and chaos and battling the "alien enemy" from house to house or bombing cities is necessary, then "it is better that we get on with it now than later." The article stresses the task should fall to radicalized youth through the National Youth Alliance.

The National Youth Alliance (NYA), originally formed from a nucleus of Youth For (George C.) Wallace supporters following the 1968 presidential election allegedly has as its purpose countering radical leftist and anarchist influences on campuses of American colleges and universities. It is controlled by individuals who militantly promote white racism and anti-Zionism and suggest violent revolution to accomplish their goals. National headquarters of NYA is located in Washington, D. C.

In view of this espousal of revolution and urban guerrilla warfare as a tactic to be followed by young Americans, you should promptly contact informants and sources to determine extent of relationship between UKA and NYA with regard to extremist activities and immediately notify FBI Headquarters of any such incidents that might occur where the UKA and/or NYA is involved.

Pertinent information should be furnished under the specific individual or organization case caption with a dual caption of "Urban Guerrilla Warfare; EM - White Hate."

On February 16, 1973, information was received from the office of the Director, National Capital Parks, National Park Service, 1100 Ohio Drive, Southwest, Washington, D.C. 1956, at Arlington, Virginia, based upon the concept of an international "National Socialist" movement as espoused by the German Nazi Party headed by Adolph Hitler. The organization supports and follows the line of hatred against Negroes, Jews and communists through various propaganda media seeking a legitimate dominant political party in the United States and foreign countries.

A source has described the National States Rights Party as an anti-Negro, anti-Semitic, white racist political party composed of past members of Klan-type organizations and other right-wing groups.

Additional participating organization was shown in the above notice as the National Renaissance Party, Post Office Box 10, New York, New York. James H. Madole is identified as the leader of this organization.

The National Renaissance Party is characterized in the Appendix of this communication.

According to the notice submitted by [] on February 14, 1973, approximately fifty individuals will picket with signs and banners between the hours of 11:00 a.m. and 6:00 p.m., on March 1, 1973. The notice states that this activity is to be conducted in a manner which will not interfere with an Arab protest demonstration planned for the same time and the same date. NATIONAL RENAISSANCE PARTY

On April 16, 1970, a source advised that the National Renaissance Party (NRP) was founded in 1949 by JAMES H. MADOLE, who continues to serve as its National Director, and who completely controls the organization. The source advised that the NRP is headquartered in MADOLE's residence at 10 West 90th Street, Apartment 8, New York, New York, where weekly meetings, usually on Sundays, are held.

The source described the NRP as an anti-Negro, anti-Semitic, and neo-Fascist organization.

This source stated that the program of the NRP, formulated in 1965, is aimed at the establishment of a "Racial Nationalist State" to be accomplished by calling a Constitutional Convention to ratify necessary amendments to the United States Constitution in order to carry out the NRP program. The source advised that as of April 16, 1970, the NRP program remains in effect and includes intentions to enact legislation to prohibit intermarriage between races, restrict American citizenship to mentally and genetically sound Caucasians, and hasten the repatriation of American Negroes to independent black African nations.
